NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* NRC Form 7, Application for License to Export Nuclear Equipment and Material.

2. *Current OMB approval number:* 3150-0027.

3. *How often the collection is required:* On occasion; for each separate request for a specific export license and for exports of incidental radioactive material using existing general licenses.

4. *Who is required or asked to report:* Any person in the U.S. who wishes to export: (a) Nuclear equipment and material subject to the requirements of a specific license, (b) radioactive waste subject to the requirements of a specific license, and (c) incidental radioactive material that is a contaminant of shipments of more than 100 kilograms of non-waste material using existing NRC general licenses.

5. *The number of annual respondents:* 70.

6. *The number of hours needed annually to complete the requirement or request:* 191 hours (190.8).

7. *Abstract:* Any person in the U.S. wishing to export nuclear material and

equipment requiring a specific authorization or radioactive waste requiring a specific authorization ordinarily should file an application for a license on NRC Form 7, except that certain submittals should be filed by letter. The application will be reviewed by the NRC and by the Executive Branch, and if applicable statutory, regulatory, and policy considerations are satisfied, the NRC will issue a license authorizing the export.

A completed NRC Form 7 must also be filed by any person in the U.S. wishing to use existing NRC general licenses for the export of incidental radioactive material before the export takes place (if the total amount of the shipment containing the incidental radioactive material exceeds 100 kilograms). The form is reviewed by the NRC to ensure that the Agency is informed before the fact of these kinds of shipments and to allow NRC to inform other interested parties, as appropriate, including import control authorities in interested foreign countries.

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
