SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules
regarding aviation safety is found in
Title 49 of the United States Code
(U.S.C.). Subtitle I, Section 106
describes the authority of the FAA

Administrator. Subtitle VII, Aviation
Programs, describes in more detail the
scope of the agency's authority. This
rulemaking is promulgated under the
authority described in Subtitle VII, Part
A, Subpart I, Section 40103. Under that
section, the FAA is charged with
prescribing regulations to assign the use
of airspace necessary to ensure the
safety of aircraft and the efficient use of
airspace. This regulation is within the
scope of that authority, as it would
modify Class E airspace at Rexburg-
Madison County Airport, ID, to support
IFR operations at the airport.

**Availability and Summary of
Documents for Incorporation by
Reference**

This document proposes to amend
FAA Order JO 7400.11F, dated August
10, 2021, and effective September 15,
2021. FAA Order JO 7400.11F is
publicly available as listed in the
ADDRESSES section of this document.
FAA Order JO 7400.11F lists Class A, B,
C, D, and E airspace areas, air traffic
service routes, and reporting points.

The Proposal

The FAA is proposing an amendment
to 14 CFR part 71 by modifying the
Class E airspace extending upward from
700 feet above the surface at Rexburg-
Madison County Airport, ID. North and
south extensions to the existing Class E
airspace are needed to ensure
containment of arriving IFR operations
below 1,500 feet above the surface and
departing IFR operations until they
reach 1,200 feet above the surface at the
airport.

Additionally, the FAA proposes an
administrative modification to the
airport's legal description. The
geographic coordinates should be
updated to match the FAA's database.

The Class E5 airspace designation is
published in paragraph 6005 of FAA
Order JO 7400.11F, dated August 10,
2021, and effective September 15, 2021,
which is incorporated by reference in 14
CFR 71.1. The Class E airspace
designation listed in this document will
be published subsequently in FAA
Order JO 7400.11, which is published
yearly and becomes effective on
September 15.

FAA Order JO 7400.11, Airspace
Designations and Reporting Points, is
published yearly and effective on
September 15.

Regulatory Notices and Analyses

The FAA has determined that this
regulation only involves an established
body of technical regulations for which
frequent and routine amendments are
necessary to keep them operationally
current, is non-controversial, and
unlikely to result in adverse or negative
comments. It therefore: (1) is not a
“significant regulatory action” under
Executive Order 12866; (2) is not a
“significant rule” under DOT

Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, prior to any FAA final regulatory action.
