For a complete description of events that followed the *Preliminary Determination*, as well as a full discussion of the issues raised by parties for consideration in the final determination, see the Issues and Decision Memorandum.⁴ The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty

Pursuant to 19 CFR 351.226(l)(3), we will also instruct CBP to require AD cash deposit rates in effect for fresh garlic for each unliquidated entry of small and large garlic chunks produced in and exported from China that have been entered, or withdrawn from warehouse, for consumption on or after June 8, 2023 (*i.e.*, the date of the initiation of this inquiry).⁶ The suspension of liquidation instructions and cash deposit requirements will remain in effect until further notice.

Changes Since the Preliminary Results

Based on comments received from interested parties and record information, we made certain changes from the *Preliminary Results* regarding the calculations of Chint Solar (Zhejiang) Co., Ltd. (Chint Solar) and High Hope Zhongtian Corporation's (High Hope Zhongtian) program rates. These changes are explained in the Issues and Decision Memorandum.

Methodology

Commerce conducted this administrative review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For each subsidy program found countervailable, Commerce finds that there is a subsidy, *i.e.*, a government-provided financial contribution that gives rise to a benefit to the recipient, and that the subsidy is specific.⁴ For a description of the methodology underlying all of Commerce's conclusions, including any determination that relied upon the use of adverse facts available pursuant to section 776(a) and (b) of the Act, see the Issues and Decision Memorandum.

Companies Not Selected for Individual Review

The Act and Commerce's regulations do not directly address the establishment of a rate to be applied to companies not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(e)(2) of the Act. Generally, Commerce looks to section 705(c)(5) of the Act, which provides instructions for determining the all-others rate in an investigation, for guidance when calculating the rate for companies that were not selected for individual examination in an administrative review. Section 777A(e)(2) of the Act provides that "the individual countervailable subsidy rates determined under subparagraph (A) shall be used to determine the all-others rate under section 705(c)(5) {of the Act}." Under section 705(c)(5)(A) of the Act, the all-others rate is normally "an amount equal to the weighted average of the countervailable subsidy rates established for exporters and producers individually investigated, excluding any
