

day. Again, this operational research will help us towards our goal of a more cost-effective 2020 Census, while maintaining quality of the results.

- We will be able to determine at what rate field staff are willing to use their own personally owned devices to conduct Census enumeration, and continue to develop our technical processes to enable this to be done in a secure and cost-effective manner. We will also be able to make quality and cost determinations about a 'Device as a Service' option, and be able to develop more mature cost models to inform our decisions related to the device provision strategies for the 2020 Census NRFU operation.

- We will be able to determine the cost and quality impacts of our newly re-engineered NRFU Reinterview quality assurance program. This data will inform our decision on an integrated and re-designed approach to quality assurance for the 2020 Census.
