BILLING CODE 4830-01-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

36 CFR Part 1253

RIN 3095-AA98

Location of NARA Facilities and Hours of Use

AGENCY: National Archives and Records Administration (NARA).

ACTION: Proposed rule.

SUMMARY: The National Archives and Records Administration proposes to revise its regulation that lists NARA facilities and hours when the public and other Federal agency staff may use the records in those facilities. This proposal updates information on NARA facilities throughout the United States, including the addition of two new facilities and the deletion of a closed NARA facility. Additional revisions include corrections to addresses, providing e-mail addresses for the Presidential libraries, the addition and correction of phone and fax numbers, and, in some cases, modifications to the hours that these facilities are open for research. This proposed rule will affect members of the public who do research at NARA.

DATES: Comments must be received by June 7, 2000.

ADDRESSES: Comments must be sent to Regulation Comments Desk (NPLN), Room 4100, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. They may be faxed to 301-713-7270.

FOR FURTHER INFORMATION CONTACT: Shawn Morton at telephone number 301-713-7360, ext. 253, or fax number 301-713-7270.

SUPPLEMENTARY INFORMATION: This proposed regulation includes information on several facility changes that have occurred since the last update to 36 CFR part 1253. In 1997, the George Bush Presidential Library was dedicated. The listing for the Bush Library is included in proposed § 1253.3, Presidential Libraries. In 1998, the Military Ocean Terminal, Bayonne, New Jersey, site of the New York Federal Records Center was closed and the NARA—Central Plains Region (Lee's Summit, MO) records center was

opened. These changes are reflected in proposed § 1253.6, Records Centers.

Listings of Presidential libraries, records centers, and regional archives are revised to include uniform facility names, corrected addresses, telephone numbers, research hours, and, for Presidential libraries, e-mail addresses. The core hours of research for the libraries, records centers, and regional archives are minimally affected by the revisions found in this proposed rule.

This rule is being issued as a proposed rule with a 30-day comment period because we believe this rule will have no substantive impact on the public using records in NARA facilities.

This proposed rule is not a significant regulatory action for purposes of Executive Order 12866 of September 30, 1993, and has not been reviewed by the Office of Management and Budget. As required by the Regulatory Flexibility Act, it is hereby certified that this proposed rule will not have a significant impact on a substantial number of small entities. This proposed rule does not have federalism implications.

RIN 2060-AE86

National Emission Standards for Hazardous Air Pollutants for Polyether Polyols Production; Synthetic Organic Chemical Manufacturing Industry; Epoxy Resins Production and Non-Nylon Polyamides Production; and Petroleum Refineries

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to amend the National Emission Standards for Hazardous Air Pollutants (NESHAP) for Polyether Polyols Production; the Synthetic Organic Chemical Manufacturing Industry (also known as the Hazardous Organics NESHAP, or HON); Epoxy Resins Production and Non-Nylon Polyamides Production; and Petroleum Refineries.

This action proposes to correct referencing errors and several equations which contained printing errors in the final NESHAP for Polyether Polyols Production. This action proposes to amend the description of a process change and the description of excess emissions; the requirements pertaining to submission of a request for extension of a compliance date; the storage vessel monitoring requirements; the definition of the terms *epoxide*, *Polyether polyol*, and *Group 2 wastewater stream*; the conditions required during performance testing for batch process vents; which compounds are considered to be organic HAP for the purposes of both the maintenance wastewater and the process wastewater requirements; the information requirements for start-up, shutdown, and malfunction reports; the dates on which initial notification reports are due; and the reporting requirements for other reports to clarify those requirements. For all four NESHAP, the EPA is proposing to amend the definition of *equipment leaks* to add the term “connectors” to the list of equipment that is subject to the equipment leak provisions in those NESHAP.

In the “Rules and Regulations” section of this **Federal Register**, we are making these corrections in a direct final rule, without prior proposal, because we view these revisions as noncontroversial, and we anticipate no adverse comments. We have explained our reasons for these corrections in the preamble to the direct final rule.

If we receive no adverse comments, we will take no further action on this proposed rule. If an adverse comment applies to an amendment, paragraph, or section of this proposed rule, and that provision may be addressed separately from the remainder of the proposed rule, we will withdraw only those provisions on which we received adverse comments. We will publish a timely withdrawal in the **Federal Register** indicating which provisions will become effective and which provisions are being withdrawn. If part or all of the direct final rule in the “Rules and Regulations” section of this **Federal Register** is withdrawn, all public comments pertaining to those provisions will be addressed in a
