

affect historic or cultural resources, nor will the proposed action affect endangered and threatened species. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

#### *Environmental Impacts of the Alternatives to the Proposed Action*

As an alternative to the proposed action, the staff considered denial of the proposed action and retention of the Backlands under Facility Operating License No. DPR-36 (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are identical.

#### *Alternative Use of Resources*

The action does not involve the use of any different resource than those previously considered in the Final Environmental Statement for the Maine Yankee Atomic Power Station, dated July 1972.

#### *Agencies and Persons Consulted*

On June 11, 2002, the staff consulted with the Maine State official, Mr. Patrick Dostie of the State of Maine, Department of Human Services, regarding the environmental impact of the proposed action. The State official had a question related to the type of effluents (e.g. contaminated dust) that demolition of the slightly contaminated structures could generate. The NRC staff responded to Mr. Dostie's question and provided information that clarified this issue with respect to this licensing action.

#### **Finding of No Significant Impact**

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated August 16, 2001, as supplemented by letter dated November 19, 2001. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike

(first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site,

### **Extension**

[Rule 17f-2(c), SEC File No. 270-35, OMB Control No. 3235-0029]

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Rule 17f-2(c) allows persons required to be fingerprinted pursuant to section 17(f)(2) of the Securities Exchange Act of 1934 to submit their fingerprints through a national securities exchange or a national securities association in accordance with a plan submitted to and approved by the Commission. Plans have been approved for the American, Boston, Chicago, New York, Pacific, and Philadelphia stock exchanges and for the National Association of Securities Dealers and the Chicago Board Options Exchange.

It is estimated that 85,000 registered broker-dealers submit approximately 275,000 fingerprint cards to exchanges or a registered security association on an annual basis. It is approximated that it should take 15 minutes to comply with Rule 17f-2(c). The total reporting burden is estimated to be 68,750 hours.

Because the Federal Bureau of Investigation will not accept fingerprint
