

Sec. 2550.408g-1. The document also requested comment on issues of law and policy raised by the final rules. The comment period on the proposed extension ended on February 18, 2009. The comment period on issues of law and policy concerning the final rules ended on March 6, 2009.

For the reasons discussed below, the Department has decided to postpone, for 60 days, the effective and applicability dates of the final rules published on January 21, 2009, until May 22, 2009, for agency review of questions of law and policy.

B. Comments Received and the Department's Decision

In response to its request, the Department received 26 comment letters.¹ A number of commenters expressed the view that the final rules raise significant issues of law and policy that should be further reviewed by the Department. In particular, these comments raised questions as to the scope of the final rules' administrative class exemption, and expressed disagreement with the interpretation of the statutory exemption's conditions contained within the final rules. Other commenters, however, expressed the view that the conditions of the final rules would be adequate to safeguard the interests of plan participants and beneficiaries, and opposed a delay of the final rules' effective and applicability dates, noting increased participant interest in investment advice in response to the current economic environment.

After consideration of the comments, the Department has concluded that the legal and policy issues raised by commenters are sufficiently significant to justify delaying the March 23 effective and applicability dates of the final rule in order to afford the Department an opportunity to review those issues. Accordingly, the Department is adopting herein the proposed 60 day delay of the effective and applicability date of the final rule. With the adoption of this delay, the effective and applicability dates of the final rule will be May 22, 2009.

Approval and Promulgation of Implementation Plans; Texas; Revisions to Permits by Rule and Regulations for Control of Air Pollution by Permits for New Construction or Modification

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is taking a direct final action to approve portions of three revisions to the Texas State Implementation Plan (SIP) submitted by the State of Texas on July 22, 1998, October 4, 2002, and September 25, 2003; these revisions amend existing sections and create new sections in Title 30 of the Texas Administrative Code (TAC), Chapter 106—Permits by Rule and Chapter 116—Control of Air Pollution by Permits for New Construction or Modification. The July 22, 1998, revision repeals and replaces the Renewal Application Fees section with a new section. The October 4, 2002, revision increases the determination of fees for NSR permits, corrects addresses, and makes other administrative changes. The September 25, 2003, revision clarifies that an emission reduction credit must be certified and banked to be creditable as an offset in the NSR permitting program, repeals and replaces the section that addresses the use of emission reductions as offsets for NSR permitting and the definition of “offset ratio,” and makes administrative changes. EPA has determined that these SIP revisions comply with the Clean Air Act and EPA regulations, are consistent with EPA policies, and will improve air quality. This action is being taken under section 110 and parts C and D of the Federal Clean Air Act (the Act or CAA).

DATES: This direct final rule is effective on May 19, 2009 without further notice, unless EPA receives relevant adverse comment by April 20, 2009. If EPA receives such comment, EPA will publish a timely withdrawal in the **Federal Register** informing the public that this rule will not take effect.
