Needs and Uses: On December 18, 2007, the Commission adopted a Report and Order and Order on Reconsideration in its 2006 Quadrennial Regulatory Review of the Commission's Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996, MB Docket No. 06-121, FCC 07-216. Section 202 requires the Commission to review its broadcast ownership rules every four years and determine whether any of such rules are necessary in the public interest. Further, Section 202 requires the Commission to repeal or modify any regulation it determines to be no longer in the public interest.

Consistent with actions taken by the Commission in the 2006 Quadrennial Regulatory Review, the following changes are made to Form 301: The

instructions to Form 301 are revised to include a reference to the 2006 Quadrennial Regulatory Review as a source of information regarding the Commission's multiple ownership attribution policies and standards. Also, the language in Section A, IV of Worksheet #2 in Form 301 is changed. This worksheet is used in connection with Section II, Item 4 of Form 301 to determine the applicant's compliance with the Commission's multiple ownership rules and cross-ownership rules set forth in 47 CFR 73.3555.

The revisions to the worksheet account for changes made by the Commission in the 2006 Quadrennial Review to 47 CFR 73.3555(d), the Daily Newspaper Cross-Ownership Rule. The revised rule changes the circumstances under which an entity may own a daily newspaper and a radio station or television station in the same designated market area. In conjunction with this same rule change, language from 47 CFR 73.3555(d) is added to Section B of Worksheet #2 to assist applicants in their determination of compliance with the Daily Newspaper Cross-Ownership Rule.

47 CFR 73.3555(d) (daily newspaper cross-ownership rule) states:

(1) No license for an AM, FM or TV broadcast station shall be granted to any party (including all parties under common control) if such party directly or indirectly owns, operates or controls a daily newspaper and the grant of such license will result in:

(i) The predicted or measured 2 mV/m contour of an AM station, computed in accordance with § 73.183 or § 73.186, encompassing the entire community in which such newspaper is published; or

(ii) The predicted 1 mV/m contour for an FM station, computed in accordance with § 73.313, encompassing the entire community in which such newspaper is published; or

(iii) The Grade A contour of a TV station, computed in accordance with § 73.684, encompassing the entire community in which such newspaper is published.

(2) Paragraph (1) shall not apply in cases where the Commission makes a finding pursuant to Section 310(d) of the Communications Act that the public interest, convenience, and necessity would be served by permitting an entity that owns, operates or controls a daily newspaper to own, operate or control an AM, FM, or TV broadcast station whose relevant contour encompasses the entire community in which such newspaper is published as set forth in paragraph (1).

(3) In making a finding under paragraph (2), there shall be a presumption that it is not inconsistent

with the public interest, convenience, and necessity for an entity to own, operate or control a daily newspaper in a top 20 Nielsen DMA and one commercial AM, FM or TV broadcast station whose relevant contour encompasses the entire community in which such newspaper is published as set forth in paragraph (1), provided that, with respect to a combination including a commercial TV station,

(i) The station is not ranked among the top four TV stations in the DMA, based on the most recent all-day (9 a.m.–midnight) audience share, as measured by Nielsen Media Research or by any comparable professional, accepted audience ratings service; and

(ii) At least 8 independently owned and operating major media voices would remain in the DMA in which the community of license of the TV station in question is located (for purposes of this provision major media voices include full-power TV broadcast stations and major newspapers).

(4) In making a finding under paragraph (2), there shall be a presumption that it is inconsistent with the public interest, convenience, and necessity for an entity to own, operate or control a daily newspaper and an AM, FM or TV broadcast station whose relevant contour encompasses the entire community in which such newspaper is published as set forth in paragraph (1) in a DMA other than the top 20 Nielsen DMAs or in any circumstance not covered under paragraph (3).

(5) In making a finding under paragraph (2), the Commission shall consider:

(i) Whether the combined entity will significantly increase the amount of local news in the market;

(ii) Whether the newspaper and the broadcast outlets each will continue to employ its own staff and each will exercise its own independent news judgment;

(iii) The level of concentration in the Nielsen Designated Market Area (DMA); and

(iv) The financial condition of the newspaper or broadcast station, and if the newspaper or broadcast station is in financial distress, the proposed owner's commitment to invest significantly in newsroom operations.

(6) In order to overcome the negative presumption set forth in paragraph (4) with respect to the combination of a major newspaper and a television station, the applicant must show by clear and convincing evidence that the co-owned major newspaper and station will increase the diversity of independent news outlets and increase competition among independent news

sources in the market, and the factors set forth above in paragraph (5) will inform this decision.

(7) The negative presumption set forth in paragraph (4) shall be reversed under the following two circumstances:

(i) The newspaper or broadcast station is failed or failing; or

(ii) The combination is with a broadcast station that was not offering local newscasts prior to the combination, and the station will initiate at least seven hours per week of local news programming after the combination.

Secretary.
