

established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes controlled airspace at Carson City Airport, Carson City, NV.

SUPPLEMENTARY INFORMATION: On April 15, 2008, the Edison Electric Institute (EEI) and the Nuclear Energy Institute (NEI) filed a joint motion for an extension of the date for filing comments on the Commission’s Notice of Proposed Rulemaking issued March 20, 2008, in the above-referenced proceeding. *Mandatory Reliability Standard for Nuclear Plant Interface Coordination*, 122 FERC ¶ 61,254 (March 20, 2008) (NOPR). In support of this request, the motion states that EEI and NEI members, who will be required to comply with the Reliability Standard proposed in the Commission’s NOPR, represent a broad spectrum of the nation’s shareholder-owned electric companies, international affiliates and all levels of the commercial nuclear energy industry. EEI and NEI state that because of the complex nature of the issues addressed in the NOPR and the importance of submitting a well-developed response, additional time is needed to file comments on the Commission’s proposed rulemaking.

Upon consideration, notice is hereby given that an extension of time for filing comments on the Commission’s NOPR

is granted to and including May 13, 2008.
