Structural Steel Beams from Korea: Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, U.S. Department of Commerce.

SUMMARY: On September 30, 2003, the Department of Commerce (the Department) published in the **Federal Register** (68 FR 56262) a notice announcing the initiation of the administrative review of the antidumping duty order on structural steel beams from the Republic of Korea (Korea). The period of review (POR) is August 1, 2002, to July 30, 2003.

We preliminarily determine that sales of structural steel beams from Korea have been made at prices below the normal value (NV) by the respondents, INI Steel Company (INI) and Dongkuk Steel Mill Co., Ltd. (DSM). If these preliminary results are adopted in the final results of this administrative review, we will instruct Customs and Border Protection (CBP) to assess antidumping duties based on all appropriate entries.

Interested parties are invited to comment on these preliminary results. Parties who submit argument in these proceedings are requested to submit with the argument: (1) a statement of the issues, (2) a brief summary of the argument, and (3) a table of authorities.

EFFECTIVE DATE: September 3, 2004.

SUPPLEMENTARY INFORMATION:

Background

On August 1, 2003 the Department published a notice of opportunity to request an administrative review of the antidumping duty order on structural steel beams from Korea. (*See Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 68 FR 45218 (August 1, 2003)). On August 29, 2003, petitioners Nucor Corporation, Nucor Yamato Steel Co., and TXI-Chaparral Steel Co. requested that the Department conduct an administrative review of DSM and INI, which are Korean producers of subject merchandise. Also, on August 29, 2003, DSM requested that the Department conduct an administrative review of their sales of subject merchandise during the POR. On September 30, 2003, the Department published a notice of initiation of a review of structural steel beams from Korea covering the period August 1, 2002, through July 31, 2003. (*See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 68 FR 56262 (September 30, 2003)). On December 17, 2003 the Department issued its antidumping duty questionnaires, covering Sections A through E, to INI and to DSM.

The Department had not disregarded sales of structural steel beams made by DSM at prices below the cost of production (COP) in the most recently completed review of DSM; therefore DSM was not initially required to respond to section D of the questionnaire. On March 2, 2004, petitioners filed an allegation that DSM had made below-cost sales. On April 6, 2004, the Department initiated a cost investigation of DSM, after which DSM was required to respond to Section D of the questionnaire.

Because we disregarded sales of certain products made by INI at prices below the COP in what was at that time the most recently completed review of structural steel beams from Korea (*see Structural Steel Beams From the Republic of Korea; Final Results of Antidumping Duty Administrative*
