DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Water Act

On March 5, 2014, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the District of Montana in the lawsuit entitled *United States and the*

State of Montana v. the City of Great Falls, Montana and Malteurop North America, Inc., Civil Action No. 4:14–cv–00016–BMM.

The United States filed this lawsuit under the Clean Water Act. The complaint names the City of Great Falls, Montana (the “City”) and Malteurop North America, Inc. (“Malteurop”) as defendants. The complaint seeks injunctive relief and civil penalties for violations of various provisions of the Clean Water Act arising from the City’s operation of its municipal wastewater and sewer system and from Malteurop’s operation of a malting plant that discharges to the City’s sewer system.

The proposed Decree would require the City to implement its Pretreatment Program. The Decree would also require the City to take a number of specific steps to prevent sanitary sewer overflows, including implementing a program for controlling Fats, Oil, and Grease (“FOG”) and root growth; a program for controlling inflow and infiltration (“I/I”) (unless the City demonstrates that I/I is not contributing to SSOs or bypass events and that it has the capacity to transport and treat I/I); and a Capacity, Management, Operations, and Maintenance (“CMOM”) program. Finally, the Decree would require the City to pay a \$120,000 civil penalty, to be split equally between the United States and the State of Montana.

The proposed Decree would require Malteurop to meet limits based on OSHA standards for hydrogen sulfide at a specific location in the City’s sewer. Malteurop may meet these limits by constructing a private service line to bypass a portion of the sewer where conditions exist that allow Malteurop’s discharges to result in the formation of hydrogen sulfide. In the interim, Malteurop will continue to operate an existing Super Oxygenation System, which minimizes hydrogen sulfide formation by injecting dissolved oxygen into a portion of the wastewater discharged by Malteurop. The proposed Decree would also require Malteurop to pay a \$525,000 civil penalty to the United States.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States, et al. v. the City of Great Falls, MT, et al.*, D.J. The form is also being updated to explain that applications for fund raising or commercial activities will be reviewed by DOL Counsel for acceptability.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject

to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1225-0087. The current approval is scheduled to expire on March 31, 2014; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on November 29, 2013 (78 FR 71665).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the Federal Register.
