What Information Is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) enhance the quality, utility, and clarity of the information to be collected; and
- (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

- 1. Explain your views as clearly as possible and provide specific examples.
- 2. Describe any assumptions that you used.
- 3. Provide copies of any technical information and/or data you used that support your views.
- 4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
- 5. Offer alternative ways to improve the collection activity.
- 6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and Federal Register citation.

What Information Collection Activity or ICR Does This Apply to?

Affected entities: Entities potentially affected by this action are gasoline retailers, wholesale purchaser-consumers, gasoline stations, gasoline stations with convenience stores and gasoline stations without convenience stores.

Title: Reformulated Gasoline Commingling Provisions.

ICR numbers: EPA ICR No. 2228.03, OMB Control No. 2060–0566.

ICR status: This ICR is currently scheduled to expire on December 31, 2009. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in Title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR Part 9 and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR Part 9.

Abstract: With this information collection request (ICR), we are seeking permission to accept notifications from gasoline retailers and wholesale purchaser-consumers related to commingling of ethanol blended and non-ethanol-blended reformulated gasoline (RFG) under section 1513 of the Energy policy Act of 2005 (EPAAct) and 40 CFR 80.78(a)(8)(ii)(B); and to provide for a compliance option whereby a retailer or wholesale purchaser-consumer may demonstrate compliance via test results under § 80.78(a)(8)(iii)(A). These provisions are designed to grant compliance flexibility. An emergency ICR has been put in place and expires December 31, 2009. We are requesting that the Office of Management and Budget (OMB) renew this ICR and request that it be effective three years after approval.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.50 hours (30 minutes) per respondent and 0.25 hours (15 minutes) per response. Burden means the total time, effort, or financial resources expended by a person to generate, maintain, retain, or disclose or

provide information to (or for) a Federal agency. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information; to process and maintain information; to disclose and provide information; to adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; to train personnel to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 56,700.

Frequency of response: Occasional.

Estimated total average number of responses for each respondent: 2.

Estimated total annual burden hours: 27,675 hours.

Estimated total annual costs: \$885,600.

Are There Changes in the Estimates From the Last Approval?

There is a reduction of \$1,079,325 in the total estimated respondent burden compared with that identified in the previous ICR. This change is due to the use of a more correct Bureau of Labor Statistics table reflecting costs for the gasoline retail station industry.¹

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

¹ For this ICR, we have used the “May 2008 National Industry-Specific Occupational Employment and Wage Estimates: NAICS 44710—Gasoline Stations,” as the basis for our estimates. See http://www.bls.gov/oes/2008/may/naics4_447100.htm (accessed September 8, 2009).

Dated: September 30, 2009.

Lori Stewart,

Acting Director, Office of Transportation and Air Quality.
