

That letter stated that OGD would accept ANDAs with the ICH recommended long-term room temperature conditions for stability studies, $25 \pm 2^\circ \text{C}$, 60 ± 5 percent RH.

On September 25, 2012 (77 FR 58999), FDA announced the availability of draft guidance for industry on "ANDAs: Stability Testing of Drug Substances and Products." The public comment period closed on December 24, 2012. We are finalizing the guidance with minor changes and intend to publish a draft guidance to address the public comments in a question-and-answer format in the near future.

This guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The guidance represents the Agency's current thinking on this stability testing for generic drug substances and products. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.

II. Comments

Interested persons may submit either electronic comments regarding this document to <http://www.regulations.gov> or written comments to the Division of Dockets Management (see **ADDRESSES**). It is only necessary to send one set of comments. Identify comments with the docket number found in brackets in the heading of this document. Received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday and will be posted to the docket at <http://www.regulations.gov>.

III. Electronic Access

Persons with access to the Internet may obtain the document at either <http://www.regulations.gov> or <http://www.fda.gov/Drugs/Guidance/ComplianceRegulatoryInformation/Guidances/default.htm>.

Dated: June 14, 2013.

Leslie Kux,

Assistant Commissioner for Policy.
