I. Background on the Montana Plan

The Abandoned Mine Land Reclamation Program was established by Title IV of the Act (30 U.S.C. 1201 *et seq.*) in response to concerns over extensive environmental damage caused by past coal mining activities. The program is funded by a reclamation fee collected on each ton of coal that is produced. The money collected is used to finance the reclamation of abandoned coal mines and for other authorized activities. Section 405 of the Act allows States and Indian tribes to assume exclusive responsibility for reclamation activity within the State or on Indian lands if they develop and submit to the Secretary of the Interior for approval, a program (often referred to as a plan) for the reclamation of abandoned coal mines.

On October 24, 1980, the Secretary of the Interior approved the Montana Plan. You can find general background information on the Montana Plan, including the Secretary's findings and the disposition of comments, in the October 24, 1980, **Federal Register** (45 FR 70445). OSMRE announced in the July 9, 1990, **Federal Register** (55 FR 28022), the Director's decision accepting certification by Montana that it had addressed all known coal-related impacts in the State that were eligible for funding under the Montana Plan. You can also find later actions concerning Montana's Plan and Plan amendments at 30 CFR 926.25.

II. Description of the Proposed Amendment

In a letter dated March 6, 2019 (Document ID No. OSM-2020-0004-0003), OSMRE, under the authority of 30 CFR 884.15, directed the State to update the Montana Plan. OSMRE requested that Montana update its Plan to meet the requirements of SMCRA, as revised on December 20, 2006 as part of the Tax Relief and Health Care Act of 2006 (Pub. L. 109-432), and in response to changes made to the implementing federal regulations as revised on November 14, 2008 (73 FR 67576) and February 5, 2015 (80 FR 6435). By letter dated August 4, 2020 (Administrative Record No. OSM-2020-0004-0002), Montana sent us an amendment to its

State Plan under SMCRA (30 U.S.C. 1201 *et seq.*). This amendment is intended to address the required amendments identified in OSMRE's letter dated March 6, 2019. The State has also proposed additional changes as part of the State's initiative to improve the Plan's readability and operational efficiency. This amendment will essentially repeal and replace Montana's existing AML Plan. A summary of the proposed changes is provided below.

Through this amendment, Montana proposes to include an updated legal opinion from the State indicating the Department of Environmental Quality (DEQ) has legal authority to conduct the AML Program under SMCRA as required under 30 CFR 884.13(a)(2). The State also proposes to omit historical documents regarding approval of previous changes to the Montana Plan; reference statutory sections rather than incorporating statutory language; reference rather than incorporating other relevant State laws such as personnel and procurement policies; clarify how AML hazards are classified into priority ranks and selected for funding; indicate how coal versus non-coal projects will be selected; clarify the Authorization to Proceed process prior to beginning reclamation projects; clarify historic set-aside fund and acid mine drainage treatment accounts; remove the Emergency Program section; and make general editorial changes for brevity and structural alignment with the Federal AML Plan requirements under 30 CFR 884.13. Montana's amendment submittal package also proposes a change to statutory language at MCA 82-4-1006 enacted by the State Legislature in 2007 regarding establishment, management, and use of funds in the State's Abandoned Mine Reclamation Account.

The full text of the program amendment is available for you to read at the locations listed above under **ADDRESSES** or at www.regulations.gov.

CONTACT. All such meetings are open to the public and, if possible, we will post notices of meetings at the locations listed under **ADDRESSES**. We will make a written summary of each meeting a part of the administrative record.

We conclude our review of the proposed amendment after the close of the public comment period and determine whether the amendment should be approved, approved in part, or not approved. At that time, we will also make the determinations and certifications required by the various laws and executive orders governing the rulemaking process and include them in the final rule.
