and/or potentially affected by the proposed project. This includes all landowners who own homes within a certain distance (as defined in the Commission's regulations) of the compressor station site.

If you do not want to send comments at this time but still want to remain on our mailing list, please return the Information Request form (appendix 2). If you do not return the Information Request, you will be taken off the mailing list.

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an "intervenor", which is an official party to the Commission's proceeding. Intervenors play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are included in the User's Guide under the "eFiling" link on the Commission's Web site.

Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC or on the Internet at http://www.ferc.gov using the "eLibrary" link. Click on the eLibrary link, then on "General Search" and enter the docket number, excluding the last three digits (i.e., CP10-4), in the Docket Number field. Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to the documents. Go to http://www.ferc.gov/esubscribenow.htm.

Finally, public meetings or site visits will be posted on the Commission's calendar located at http://www.ferc.gov/

EventCalendar/EventsList.aspx along with other related information.

[Project No. 2496-194]

Eugene Water and Electric Board; Notice of Availability of Environmental Assessment

November 5, 2009.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR part 380 (Order No. 486, 52 FR 47879) the Commission has reviewed an application filed by Eugene Water and Electric Board (licensee) on December 24, 2008, and supplemented on January 27 and April 1, 2009, requesting Commission approval to construct a new boat launch at the Leaburg-Walterville Hydroelectric Project (FERC No. 2496). The proposed boat launch would be located at the project's Leaburg Development, along Leaburg Lake, near the Goodpasture covered bridge.

The Commission has prepared an environmental assessment (EA) that evaluates the environmental impacts of the licensee's proposal. The EA finds that approval of the application would not constitute a major federal action significantly affecting the quality of the human environment.

The EA is attached to a Commission order titled "Order Approving Amendment to Recreation Plan Pursuant to Article 432", issued October 30, 2009, and is available for review and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at http://www.ferc.gov using the "eLibrary" link. Enter the docket number (P-2496) excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or tollfree at 1–866–208–3372, or for TTY, (202) 502–8659.
