

Council address: Mid-Atlantic Fishery Management Council, 800 North State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: The Mid-Atlantic Fisheries Management Council's (MAFMC) Atlantic Bluefish Advisory Panel (AP) will meet jointly with the Atlantic States Marine Fisheries Commission's (ASMFC) Atlantic Bluefish AP. The purpose of this meeting is to review and comment on the reports of the MAFMC's Scientific and Statistical Committee (SSC) and the Bluefish Monitoring Committee meetings held in July 2015. The MAFMC and the ASMFC will consider the input from the Bluefish AP in August when setting fishery specifications (*i.e.* catch and landings limits and management measures) for 2016-2018.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526-5251, at least 5 days prior to the meeting date.

Dated: July 9, 2015.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

Release of the Draft 2015 Edition of the U.S. Arctic Nautical Charting Plan

AGENCY: Office of Coast Survey, National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Request for comments.

SUMMARY: The NOAA Office of Coast Survey has released a draft of the 2015 edition of the U.S. Arctic Nautical Charting Plan. The plan provides information about three topics: NOAA electronic navigational chart (NOAA ENC®) coverage in U.S. Arctic waters, progress on publishing new Arctic charts, and specifications for eleven

proposed new charts. The primary purpose of the plan is to propose new chart coverage in the U.S. Arctic and to encourage feedback from stakeholders on the extent, scale, and other aspects of the proposed new coverage. Coast Survey invites written comments about this latest edition which is available from <http://nauticalcharts.noaa.gov/arcticplan>.

DATES: Comments are due by midnight, October 1, 2015.

ADDRESSES: Mail written comments to National Ocean Service, NOAA (N/CS2), Attention: U.S. Arctic Nautical Charting Plan, 1315 East-West Highway Silver Spring, MD 20910-3282. See **SUPPLEMENTARY INFORMATION** section for how to comment electronically.

FOR FURTHER INFORMATION CONTACT: Colby Harmon, telephone 301-713-2737, ext.187; email: colby.harmon@noaa.gov.

SUPPLEMENTARY INFORMATION: You are invited to comment on the U.S. Arctic Nautical Charting Plan through NOAA's Nautical Discrepancy Report System at <http://ocsddata.ncd.noaa.gov/idrs/discrepancy.aspx>. In the "OTHER PRODUCTS" box, enter "U.S. Arctic Nautical Charting Plan." Enter your comments, suggestions, or questions in the "DESCRIPTION OF DISCREPANCY" box.

For the first time, the U.S. Arctic Nautical Charting Plan provides information about existing, recently added, and proposed new electronic navigational chart (ENC) coverage in U.S. Arctic waters. A series of graphics depicts the existing extent of different usage (or scale) bands of ENC coverage. Recently added and proposed new ENC coverage is based on existing or proposed raster (traditional paper) chart footprints, although the final extent and display scale of the ENCs may vary slightly from their corresponding raster chart counterparts. NOAA will soon close a significant gap in small-scale ENC coverage and is adding new large-scale Arctic ENC cells.

Coast Survey released the first edition of the U.S. Arctic Nautical Charting Plan in 2011. Three of the raster charts identified in the original plan have now been published. Two of these have large-scale insets. The "Progress Report" section of the plan details these charts and provides links to an online viewer for these charts.

Coast Survey's plan recommends making 11 new charts in the Arctic to complement existing chart coverage. Seven of the charts will fill gaps in medium-scale chart coverage from the Alaska Peninsula to Cape Lisburne at

the edge of the North Slope. Other larger scale charts will provide for safer passage though the Etolin and Bering Straits and for entry into harbors such as Barrow, the northernmost town in the United States. The "Proposed New Raster Charts" section of the plan provides detailed specifications for each of the proposed new charts. The specifications include scale, geographic extent, an image of the chart footprint, and other information.

Authority: 33 U.S.C. Chapter 17, Coast and Geodetic Survey Act of 1947.

Dated: June 22, 2015.

Rear Admiral Gerd Glang,

Director, Office of Coast Survey, National Ocean Service, National Oceanic and Atmospheric Administration.

National Telecommunications and Information Administration

Multistakeholder Process To Develop Best Practices for Privacy, Transparency, and Accountability Regarding Commercial and Private Use of Unmanned Aircraft Systems

AGENCY: National Telecommunications and Information Administration, U.S. Department of Commerce.

ACTION: Notice of open meetings.

SUMMARY: The National Telecommunications and Information Administration (NTIA) will convene meetings of a multistakeholder process concerning privacy, transparency, and accountability issues regarding commercial and private use of unmanned aircraft systems. This Notice announces the meetings to be held in August, September, October, and November 2015. The first meeting is scheduled for August 3, 2015.

DATES: The meetings will be held on August 3, 2015; September 24, 2015; October 21, 2015; and November 20, 2015 from 1 p.m. to 5:00 p.m., Eastern Time. See **SUPPLEMENTARY INFORMATION** for details.

ADDRESSES: The meetings will be held in the Boardroom at the American Institute of Architects, 1735 New York Avenue NW., Washington, DC 20006.

FOR FURTHER INFORMATION CONTACT: John Verdi, National Telecommunications and Information Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Room 4725, Washington, DC 20230; telephone (202) 482-8238; email jverdi@ntia.doc.gov.
