- How should a private database system be funded? Please give the reasons for your response.
- Should the NAIS allow for multiple privately managed databases? Please explain why or why not.
- Should a public (government) system be made available as well as a privately managed system so that producers would have a choice? Please give the reasons for your response.
- Should a privately managed system include all species? Please give the reasons for your response.
- Would either system work equally well at the State level? Please explain why or why not.
