

202–402–3400. This is not a toll-free number. HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Home Equity Conversion Mortgage (HECM) Insurance Application for the Origination of Reverse Mortgages and Related Documents.

OMB Approval Number: 2502–0524.

Type of Request: Revision of currently approved collection.

Form Number: HUD–92901, HUD–92902, HUD–92051, HUD–92561, HUD–92564–CN, HUD–92800.5b, HUD–92900–A, HUD 92900–C, HUD–1, HUD–1a, HUD–9991, HUD–9992, FNMA–1025, FNMA–1003, FNMA–1007, FNMA–1009, FNMA–1004, FNMA–1004D, FNMA–1004C, FNMA–1073, FNMA–1103, HUD–92541, HUD–92544, NPMA–99A, NPMA–99B.

Description of the need for the information and proposed use: The Home Equity Conversion Mortgage (HECM) program is the Federal Housing Administration's (FHA) reverse mortgage program that enables seniors who have equity in their homes to withdraw a portion of the accumulated equity. The intent of the HECM Program is to ease the financial burden on elderly homeowners facing increased health, housing, and subsistence costs at a time of reduced income. The currently approved information collection is necessary to screen mortgage insurance applications in order to protect the FHA insurance fund and the interests of consumers and potential borrowers. This collection was revised to align with current program requirements and recent amendments to the regulations.

Respondents: Mortgagees and Counselors.

Estimated Number of Respondents: 512.

Estimated Number of Responses: 572,680.

Frequency of Response: Varies.

Average Hours per Response: 0.05 to 2.00.

Total Estimated Burdens: \$28,462,906.21.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

C. Authority

Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. chapter 35.

Jeffrey D. Little,

General Deputy Assistant Secretary for Housing.

BILLING CODE 4210–67–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[BLM_NV_FRN_MO4500169077]

Notice of Availability of the Final Environmental Impact Statement for Nevada Gold Mines LLC's Goldrush Mine Project, Lander and Eureka Counties, NV

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act (NEPA) of 1969, as amended, and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM) announces the availability of the Final Environmental Impact Statement (EIS) for the Nevada Gold Mines LLC (NGM) Goldrush Mine Project.

DATES: The BLM will not issue a decision on the proposal for a minimum

of 30 days after the date that the Environmental Protection Agency (EPA) publishes its Notice of Availability (NOA) in the **Federal Register**.

ADDRESSES: The Final EIS and documents pertinent to this proposal are available for review on the BLM National NEPA Register website at <https://eplanning.blm.gov/eplanning-ui/project/2012544/510>.

FOR FURTHER INFORMATION CONTACT:

Scott Distel, Project Manager, telephone: (775) 635–4093; email: sdistel@blm.gov; address: 50 Bastian Road, Battle Mountain, NV 89820. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 7–1–1 (TTY, TDD, or TeleBraille) to access telecommunication relay services for contacting Mr. Distel. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

Purpose and Need for the Proposed Action

The BLM's purpose for the action is to respond to NGM's proposal, as described in its proposed plan of operations, and to analyze the potential environmental effects associated with the Proposed Action, which is the operator's proposed plan of operations, and alternatives to the Proposed Action. NEPA mandates that the BLM evaluate the potential effects of the Proposed Action and develop alternatives. The BLM's need for the action is established by the BLM's responsibilities under Section 302 of FLPMA and the BLM Surface Management Regulations at 43 CFR subpart 3809 to respond to a proposed plan of operations and ensure that operations prevent unnecessary or undue degradation of the public lands.

Proposed Action and Alternatives

Under the proposed plan of operations, NGM would construct and operate an underground mine project in the Cortez Mining Area of Lander and Eureka Counties, Nevada. The proposed Goldrush Mine Plan boundary encompasses 19,853 acres, of which 772 acres are private land controlled by NGM and 19,081 acres are public lands administered by the BLM Battle Mountain District, Mount Lewis Field Office (MLFO) and BLM Elko District, Tuscarora Field Office (TFO). Most of this area is within existing exploration and mine plans previously authorized by the BLM and includes facilities and surface disturbance associated with the

authorized plans. To create the new Plan boundary, NGM proposes boundary modifications and/or reclassification of acres within the following existing NGM-owned exploration and mine Plan boundaries: Horse Canyon Mine Plan (N-66896) administered by MLFO; Horse Canyon/Cortez Unified Exploration Project (HC/CUEP) Plan (N-66621) administered by MLFO; West Pine Valley Exploration Project Plan (N-77213) administered by TFO; and use of existing infrastructure at the Cortez Mine (N-67575) administered by MLFO.

The proposed plan of operations would result in 1,694 acres of new surface disturbance on public lands administered by the BLM, including approximately 210 acres of exploration disturbance that could occur anywhere within the proposed Goldrush Mine Plan boundary. In addition, approximately 1,064 acres of existing authorized disturbance would be within the proposed footprint, and approximately 12 acres of existing authorized disturbance would be reclassified. The proposal includes a materials handling system for transporting ore and waste rock from the underground workings to the surface and transporting aggregate and supplies to the underground workings and surface backfill plant; a dewatering system; ventilation raises; a backfill aggregate paste plant and crusher; a shotcrete/cemented rock fill (CRF) plant; two new power lines with two switching stations; new ancillary surface facilities; and continued surface and underground exploration operations.

The Revised Proposed Action for Reduced Wildlife Impacts Alternative is the BLM's Preferred Alternative. The proposed Plan boundary under this alternative would consist of 19,871 acres, of which 772 acres would be on private land controlled by NGM and 19,099 of public lands administered by the BLM. The same reclassification of acres from existing authorizations would occur as described under the proposed plan of operations, except a total of 888 acres would be transferred from the West Pine Valley Exploration Plan (N-77213) to the Goldrush Mine Plan boundary. This alternative would create an additional 1,626 acres of new surface disturbance on public lands administered by the BLM, including approximately 210 acres of exploration disturbance. In addition, approximately 1,027 acres of existing authorized disturbance would be within the footprint of this alternative, and approximately five acres of existing

authorized disturbance would be reclassified.

The proposed underground mining and surface support operations for the Goldrush Mine under the Revised Proposed Action for Reduced Wildlife Impacts Alternative would include the same features as described for proposed plan of operations, except the following would occur: the water treatment plant and multi-use shop would be eliminated; the surface paste plant in Horse Canyon, paste plant access road to Horse Canyon, and associated aggregate haulage would be eliminated; a secondary CRF plant would be constructed on the proposed portal pad expansion; the laydown yard would be relocated to be constructed adjacent to the West Pine Valley rapid infiltration basin; and the alignment of the 13.8-kV power line would be changed to relocate the poles below the crest of the canyon wall in Horse Canyon. The only changes to the underground mining operations would be increasing the diameter of the ventilation raises to 21 feet in diameter and eliminating the use of the aggregate paste fill as backfill.

Under the No Action Alternative, the development of the Goldrush Mine would not be authorized and NGM would not construct, operate, and close a new underground mine (*i.e.*, the Goldrush Mine). Modifications or reclassification of acres would not occur, and the dual use of facilities between the Cortez Mine and Goldrush Mine would not occur. NGM would continue current authorized mining and exploration operations under the previously authorized plans.

Based on the analyses contained in the EIS for the proposed Goldrush Mine Project, and after carefully considering input received from the public and cooperating agencies, the BLM has selected the Revised Proposed Action for Reduced Wildlife Impacts Alternative as the BLM's preferred alternative.

Public comments on the Draft EIS received, and internal BLM review, were considered and incorporated as appropriate into the Final EIS. Public comments resulted in the addition of clarifying text but did not significantly change the impact analyses.

(Authority: 40 CFR 1506.6, 40 CFR 1506.10)

Douglas W. Furtado,

District Manager Battle Mountain District.

BILLING CODE 4331-21-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[BLM_NV_FRN_MO4500173317]

Notice of Segregation of Public Land for the Pantheon Solar Project, White Pine County, NV

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of segregation.

SUMMARY: Through this notice the Bureau of Land Management (BLM) is segregating public lands included in the right-of-way application for the Pantheon Solar project (N-099861) from appropriation under the public land laws, including the Mining Law, but not the Mineral Leasing or Material Sales Acts, for a period of 2 years from the date of publication of this notice, subject to valid existing rights. This segregation is to allow for the orderly administration of the public lands to facilitate consideration of development of renewable energy resources. The public lands segregated by this notice total 4,210.06 acres.

DATES: This segregation for the lands identified in this notice takes effect on October 31, 2023.

FOR FURTHER INFORMATION CONTACT: For further information and/or to have your name added to the mailing list, send requests to: Jared Bybee, Field Manager, at telephone (775) 289-1847; address 702 N Industrial Way, Ely, NV 89301 or email jbybee@blm.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

Regulations found at 43 CFR 2091.3-1(e) and 43 CFR 2804.25(f) allow the BLM to temporarily segregate public lands within a right-of-way application area for solar energy development from the operation of the public land laws, including the Mining Law, by publication of a **Federal Register** notice. The BLM uses this temporary segregation authority to preserve its ability to approve, approve with modifications, or deny proposed rights-of-way and to facilitate the orderly administration of the public lands. This temporary segregation is subject to valid existing rights. Licenses, permits, cooperative agreements, or discretionary
