Abstract: To help expand historically underserved and overburdened communities' access to critical resources, the U.S. Environmental Protection Agency (EPA) has collaborated with the U.S. Department of Energy to develop the Environmental Justice Thriving Communities Technical Assistance Centers (TCTAC) Program. The 18 Centers will operate in cooperative agreements with EPA to

remove barriers and improve access for communities who wish to apply for financial assistance awards to tackle their environmental justice concerns. The Centers will provide assistance and training to build capacity in: identifying sources of funding; navigating grant application systems; compiling strong grant proposals; managing grants; and developing partnerships and coalitions. With this Information Collection Request (ICR), EPA seeks authorization to collect post-award information from each Center to track their progress. Collection of this information enables EPA to assess and manage the TCTAC Program, which ensures responsible stewardship of public funds; rigorous evidence-based learning and improvement; and transparent accountability to the American public. This ICR also requests authorization for the Centers to collect input and insights from communities who seek to obtain technical assistance services, as well as stakeholders who have valuable experience and expertise in community engagement and empowerment. These information collections will enable the Centers to document local priorities, needs, and norms to ensure that they develop useful and relevant technical assistance and training services. Furthermore, feedback about these services will enable the Centers to conduct self-assessments to identify best practices and areas for improvement. Lastly, this ICR requests authorization for the National Centers in the TCTAC Program to conduct quarterly needs assessments for the Regional Centers, in order to identify the best ways in which the National Centers can support, expand, and bolster the technical assistance that local communities may need.

Form Numbers: None.

Respondents/affected entities: To be determined.

Respondent's obligation to respond: Mandatory for grant recipients as per reporting requirements included in EPA regulations 2 CFR parts 200 and 1500, and voluntary for public outreach information collections via surveys and focus groups.

Total estimated burden: To be determined. This data will be available for the next public review period.

Deputy Assistant Administrator for Environmental Justice, Office of Environmental Justice and External Civil Rights.
