

name, organization name, description of the submission, medical condition, intervention, and email address. For the purposes of meta-analyses, trial summary data from missing and unidentified studies are sought. For the purposes of constructing evidence tables and quality ratings (e.g., on public reporting of cost measures or health information exchange), data can vary (e.g., URLs, study designs, and consumer-mediated exchange forms). Information on both completed and ongoing studies is requested. Submitters may alternatively email their

submission to the AHRQ EPC mailbox at epc@ahrq.hhs.gov.

The EPC Program currently uses a broad-based announcement via email listserv and a **Federal Register** notice, as needed, to publicize the opportunity to submit scientific information about each topic. AHRQ plans to conduct one SEADS collection per topic. Up to twenty-four topics per year with SEADS portals are anticipated; over the past 5 years the number of SEADS portals has ranged from 11–20, with an average range of 0–5 potential respondents per topic. The EPC Program does not anticipate more than 40 topics per year with SEADS portals.

Estimated Annual Respondent Burden

Exhibit 1 presents estimates of the reporting burden hours for the data collection efforts. Time estimates are based on pilot testing of materials and what can reasonably be requested of respondents. The number of respondents listed in “Number of respondents” of Exhibit 1 reflects a projected upper range response rate per SEADS portal multiplied by the anticipated upper limit of number of SEADS portals per year, based on historical information over the past 3 years.

EXHIBIT 1—ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Hours per response	Total burden hours per SEADS
Online Submission Form (OSF)	200	1	15/60	50
Total	200	1	15/60	50

EXHIBIT 2—ESTIMATED ANNUALIZED COST BURDEN

Form name	Number of respondents	Total burden hours	Average hourly wage rate *	Total cost burden
OSF	200	50	^a \$57.62	\$2,881
Total	200	50	57.62	2,881

SUPPLEMENTARY INFORMATION:

Description: The MIECHV Program authorizes the Secretary of HHS (in section 511(h)(2)(A)) to award grants to Indian tribes (or a consortium of Indian tribes), tribal organizations, or urban Indian organizations to conduct an early childhood home visiting program. The legislation set aside 3 percent of the total MIECHV program appropriation for grants to tribal entities. Tribal MIECHV grants, to the greatest extent practicable, are to be consistent with the requirements of the MIECHV grants to states and jurisdictions and include conducting a needs assessment and establishing quantifiable, measurable benchmarks.

The ACF, Office of Early Childhood Development (ECD), in collaboration with the Health Resources and Services Administration (HRSA), Maternal and Child Health Bureau (MCHB), awards grants for the Tribal MIECHV Program. The Tribal MIECHV grant awards support 5-year cooperative agreements

to conduct community needs assessments; plan for and implement high-quality, culturally relevant, evidence-based home visiting programs in at-risk tribal communities; collect and report on performance measures; and participate in research and evaluation activities to build the knowledge base on home visiting among Native populations.

Specifically, the MIECHV legislation requires that State and Tribal MIECHV grantees collect performance data to measure improvements for eligible families in six specified areas (referred to as “benchmark areas”) that encompass the major goals of the program. These include:

1. Improved maternal and newborn health;
2. Prevention of child injuries, child abuse, neglect, or maltreatment, and reduction in emergency department visits;
3. Improvement in school readiness and achievement;
4. Reduction in crime or domestic violence;
5. Improvement in family economic self-sufficiency; and

6. Improvement in the coordination and referrals for other community resources and supports.

Tribal MIECHV grantees are required to propose a plan for meeting the benchmark requirements specified in the legislation and must report on improvement in constructs under each benchmark area. Tribal Home Visiting (HV) Form 2 will provide a template for Tribal MIECHV grantees to report data on their progress in improving performance under the six benchmark areas, as stipulated in the legislation.

ACF will continue to use Tribal HV Form 2 to:

- Track and improve the quality of benchmark measures data submitted by the Tribal grantees;
- Improve program monitoring and oversight;
- Improve rigorous data analyses that help to assess the effectiveness of the programs and enable ACF to better monitor projects; and
- Ensure adequate and timely reporting of program data to relevant federal agencies and stakeholders including Congress and members of the public.

Respondents: Tribal MIECHV Grantees.
