SUPPLEMENTARY INFORMATION:

I. Background

Section 135 of the Trade Act of 1974, as amended (19 U.S.C. 2155), establishes a private-sector trade advisory system to ensure that U.S. trade policy and trade negotiation objectives adequately reflect U.S. commercial and economic interests. Section 135(c)(2) (19 U.S.C. 2155(c)(2)) directs the President to establish sectoral or functional trade advisory committees as appropriate, comprised of representatives of all industry, labor, agricultural, and services interests (including small business interests) in the sector or functional area. These committees provide detailed policy and technical advice, information, and recommendations regarding trade barriers, negotiation of trade agreements, and implementation of existing trade agreements affecting industry sectors, and perform other advisory functions relevant to U.S. trade policy matters as requested. In organizing these committees, the U.S. Trade Representative and the relevant Secretary consult with interested private organizations and consider:

- Patterns of actual or potential competition between United States industry and agriculture and foreign enterprise in international trade.
- the character of the nontariff barriers and other distortions affecting such competition.
- the necessity for reasonable limits on the number and size of advisory committees.
- in the case of each sectoral committee, that the product lines covered by each committee be reasonably related.

Pursuant to this authority, the U.S. Trade Representative and the Secretary established the ITACs to provide detailed policy and technical advice, information, and recommendations on trade policy matters including:

- Negotiating objectives and bargaining positions before entering into trade agreements.
- the impact of the implementation of trade agreements on the relevant sector.
- matters concerning the operation of any trade agreement once entered into.

- other matters arising in connection with the development, implementation, and administration of the trade policy of the United States.

The nonpartisan, industry input provided by the ITACs is important in developing unified trade policy objectives and positions when the United States negotiates and implements trade agreements. The ITACs address market-access problems, trade barriers, tariffs, discriminatory foreign procurement practices, and information, marketing, and advocacy needs of their industry sector. With limited statutory exceptions, the ITACs are subject to the provisions of the Federal Advisory Committee Act.

The charters of the current ITACs expire in February 2022, and the U.S. Trade Representative and Secretary intend to renew the ITACs for new four-year charter terms beginning in February 2022 and ending in February 2026. The list of ITACs for the current 2018–2022 charter term is as follows:

ITAC 1: Aerospace Equipment
ITAC 2: Automotive Equipment and Capital Goods
ITAC 3: Chemicals, Pharmaceuticals, Health/Science Products and Services
ITAC 4: Consumer Goods
ITAC 5: Forest Products, Building Materials, Construction, and Nonferrous Metals
ITAC 6: Energy and Energy Services
ITAC 7: Steel
ITAC 8: Digital Economy
ITAC 9: Small and Minority Business
ITAC 10: Services
ITAC 11: Textiles and Clothing
ITAC 12: Customs Matters and Trade Facilitation
ITAC 13: Intellectual Property Rights
ITAC 14: Standards and Technical Trade Barriers

For the 2022–2026 charter term, the U.S. Trade Representative and the Secretary propose to restructure the ITACs as follows based on the nature of the U.S. industry in various sectors, the level of interest in serving on an ITAC (using the number of members and applications for appointment during the 2018–2022 charter terms), the level of activity of each ITAC (using the number of meetings and recommendations
