SUPPLEMENTARY INFORMATION: On September 16, 2009, FEMA published a Final Rule on Property Acquisition and Relocation for Open Space (44 CFR part 80) that governs property acquisitions for FEMA's four Hazard Mitigation Assistance (HMA) grant programs, three of which, Pre-Disaster Mitigation, the Hazard Mitigation Grant Program, and the Safeguarding Tomorrow Revolving Loan Fund (RLF) program are authorized under the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1988 (Pub. L. 93-288, as amended) (42 U.S.C. 5133, 5170c, and 5135) and the fourth (Flood Mitigation Assistance) under Section 1366 of the National Flood Insurance Act (NFIA) of 1968 (Pub. L. 90-448, as amended) (42 U.S.C. 4001 *et seq.*). 44 CFR part 80 requires the collection of information from grant applicants to ensure the voluntary nature of the property acquisitions and to ensure that the property acquired remains in open space in perpetuity.

States, federally-recognized Tribes (Tribes) and Territories as applicants/recipients, per 44 CFR 80.5(b)(3), are responsible for collecting and reviewing applications for acquisition projects to ensure that the proposed activities comply with 44 CFR part 80. States, Territories and Tribes must ensure that the property acquisition is voluntary in nature. The subapplication they submit to FEMA for proposed projects must include information to enable FEMA's determination of eligibility, technical feasibility, cost effectiveness, and environmental and historic preservation compliance (44 CFR 80.5(b)(4)). Per 44 CFR 80.5(b), once the property is acquired, States, Territories and Tribes, as well as FEMA and the subrecipients, must enforce the terms of 44 CFR part 80 and the deed restrictions to ensure that the property remains committed to open space use in perpetuity. States, Territories and Tribes must report on property compliance with open space requirements after the grant is awarded.

With this revision, FEMA is removing five instruments off the inventory for this information collection because each of these five instruments are approved for use in a different information collection with its own OMB Control Number. These five instruments will still be used but do not require to be approved for use by OMB twice.
