ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Virginia (Virginia). This action proposes to approve Virginia's repeal of its emission standards for perchloroethylene dry cleaning systems. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

ACTION: Proposed rule.

SUMMARY: Pursuant to the Resource Conservation and Recovery Act, as amended, 42 U.S.C. 6901 *et seq.* ("RCRA"), and the regulations thereunder, the State of New Jersey (the "State") applied for final authorization of changes to its hazardous waste program. In that section, EPA is authorizing the revisions by an immediate final rule. EPA did not publish a proposal prior to the immediate final rule because EPA believes that this action is not controversial and does not expect comments that oppose it. EPA has
