

incident. NMFS will work with Seattle DOT to determine whether modifications in the activities are appropriate.

(ii) In the event that Seattle DOT discovers an injured or dead marine mammal, and the lead PSO determines that the injury or death is not associated with or related to the activities authorized in the IHA (e.g., previously wounded animal, carcass with moderate to advanced decomposition, or scavenger damage), Seattle DOT will report the incident to the Permits and Conservation Division, Office of Protected Resources, NMFS and the NMFS Stranding Hotline and/or by email to the NMFS' West Coast Stranding Coordinator within 24 hrs of the discovery. Seattle DOT will provide photographs or video footage (if available) or other documentation of the stranded animal sighting to NMFS. Activities may continue while NMFS reviews the circumstances of the incident.

(c) Acoustic Monitoring Report—Seattle DOT will submit an Acoustic Monitoring Report that will provide details on the monitored piles, method of installation, monitoring equipment, and sound levels documented during monitoring. NMFS will review the acoustic monitoring report and suggest any changes in monitoring as needed.

8. This Authorization may be modified, suspended or withdrawn if the holder fails to abide by the conditions prescribed herein or if NMFS determines the authorized taking is having more than a negligible impact on the species or stock of affected marine mammals.

9. A copy of this Authorization must be in the possession of each contractor who performs the construction work at the Pier 62 Project.

SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) is required by 35 U.S.C. 131 *et seq.* to examine an application for patent and, when appropriate, issue a patent. The USPTO also is required to publish patent applications, with certain exceptions, promptly after the expiration of a period of eighteen months from the earliest filing date for which a benefit is sought under Title 35, United States Code.

Many actions taken by the USPTO during its examination of an application for patent or for reissue of a patent, or during its reexamination of a patent, are subject to review by an appeal to the Patent Trial and Appeal Board. For other USPTO actions, review is in the form of administrative review obtained via submission of a petition to the USPTO. USPTO petitions practice also provides an opportunity for a patent applicant or owner to supply additional information that may be required in order for the USPTO to further process an application or patent.

This collection covers petitions filed in patent applications and reexamination proceedings that, when

submitted to the USPTO, must be accompanied by the fee set forth in 37 CFR 1.17(f), (g), or (h). This collection also covers the transmittals for the petition fees.

II. Method of Collection

The items in this collection can be submitted electronically through EFS-Web, the USPTO’s web-based electronic filing system. Items also can be submitted on paper by mail, facsimile, or hand delivery to the USPTO. The petitions to make special under the accelerated examination program only can be filed through EFS-Web.

III. Data

OMB Number: 0651–0059.

IC Instruments and Forms: PTO/SB/17P, PTO/SB/23, PTO/SB/24a, PTO/SB/28 (EFS-Web only), and PTO/SB/140.

Type of Review: Revision of a Previously Existing Information Collection.

Affected Public: Business or other for profit; non-profit institutions.

Estimated Number of Respondents: 40,560 responses per year. The USPTO estimates that 26% will be filed by small entities and 3% by micro entities. 98% of all responses will be filed electronically.

Estimated Time per Response: The USPTO estimates that the response time for activities related to these patent petitions will take the public approximately 5 minutes (0.08 hours) to

12 hours to complete, depending on the particular item. (See Table 1.) This includes time to gather the necessary information, create the documents, and submit the completed request to the USPTO. The USPTO calculates that, on balance, it takes the same amount of time to prepare the petition and the fee transmittal form, and submit them to the USPTO, regardless of whether the applicant or patent owner submits the material electronically or in paper form.

Estimated Total Annual Respondent Burden Hours: 42,195.00 hours.

Estimated Total Annual Respondent (Hourly) Cost Burden: \$17,284,617.00 The USPTO expects that attorneys will complete all of the items in this collection, with the exception of the petitions for requests for documents in a form other than that provided by 37 CFR 1.19 and the petitions for express abandonment to avoid publication under 37 CFR 1.138(c), both of which the USPTO expects will be completed by para-professionals. The hourly rates for attorneys and paraprofessionals are \$410 and \$141, respectively. These rates are established by estimates in the 2015 Report of the Economic Survey, published by the Committee on Economics of Legal Practice of the American Intellectual Property Law Association. Using these hourly rates, the USPTO estimates that the total respondent cost burden for this collection is \$17,284,617.00 per year.

Estimated Total Annual (Non-hour) Respondent Cost Burden: \$3,147,594.80. There are no capital start-up, operation, or maintenance costs associated with this information collection. However, the public may incur cost burden in the form of postage and filing fees.

The public may incur postage costs when submitting the items in this collection. Although the USPTO prefers that the items in this collection be submitted electronically, the items may be submitted to the USPTO by mail through the United States Postal

Service. The USPTO expects that approximately 98 percent of the items in this collection will be submitted electronically (except for the petitions to make special under the accelerated examination program, which must be submitted electronically), resulting in 820 mailed submissions (though items that are not electronically filed may alternatively be submitted by mail, facsimile or hand delivery, for the purposes of this estimate, the USPTO is treating all items that are not filed electronically as though they were

mailed). The average cost for a four-ounce large envelope shipped first-class via USPS is \$1.64. Therefore, the USPTO estimates that the postage costs for the mailed submissions in this collection will total \$1,344.80.

There are filing fees associated with this collection, which were previously accounted for in collection 0651–0072. That collection has been discontinued, and the relevant fees have been consolidated into to this collection. These fees are listed in the table below.

TABLE 2—FILING FEES

No.	Item	Estimated annual responses	Filing fee (\$)	Total non-hour cost burden (\$)

No.	Item	Estimated annual responses	Filing fee (\$)	Total non-hour cost burden (\$)
		(a)	(b)	(a) × (b) = (c)
3	Petitions requiring the petition fee set forth in 37 CFR 1.17 (h) (Group III) (large entity).	8,000	140	1,120,000.00

Totals	19,650	3,146,250.00

Therefore, the USPTO estimates that the total annual (non-hour) cost burden for this collection, in the form of postage costs and filing fees is \$3,147,594.80 per year.

SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) administers the Trademark Act, 15 U.S.C. 1051 *et seq.*, which provides for the Federal registration of trademarks, service marks, collective trademarks and service marks, collective membership marks, and certification marks. Individuals and businesses that use or intend to use such marks in commerce may file an application to register their mark with the USPTO.

Such individuals and businesses may also submit various communications to

the USPTO, including providing additional information needed to process a request to delete a particular filing basis from an application or to divide an application identifying multiple goods and/or services into two or more separate applications. Applicants may seek a six-month extension of time to file a statement that the mark is in use in commerce or submit a petition to revive an application that abandoned for failure to submit a timely response to an office action or a timely statement of use or extension request. In some circumstances, an applicant may expressly abandon an application by filing a written request for withdrawal of the application.

The rules implementing the Act are set forth in 37 CFR part 2. These rules mandate that each register entry include the mark, the goods and/or services in connection with which the mark is used, ownership information, dates of use, and certain other information. The USPTO also provides similar information concerning pending applications. The register and pending application information may be accessed by an individual or by businesses to determine the availability of a mark. By accessing the USPTO's information, parties may reduce the possibility of initiating use of a mark previously adopted by another. The Federal trademark registration process may thereby reduce the number of filings between both litigating parties and the courts.

II. Method of Collection

The forms in this collection are available in electronic format through the Trademark Electronic Application System (TEAS), which may be accessed on the USPTO Web site. TEAS Global Forms are available for the items where a TEAS form with dedicated data fields is not yet available. Applicants may also submit the information in paper form by mail, fax, or hand delivery.
