Partnering With Schools of Public Health to Enhance Public Health Capacity for HIV Prevention and Care Activities in Vietnam; Notice of Intent to Fund Single Eligibility Award

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2004 funds for a cooperative agreement program to provide technical and capacity building assistance for HIV prevention and care

in Vietnam. This program should involve training and other capacity building that specifically facilitates the implementation, management, monitoring and evaluation of HIV prevention and care activities, using locally appropriate approaches, and should operate in close collaboration with the CDC Global AIDS Program (GAP) Vietnam Office and its collaborators in Vietnam (e.g., Vietnam Ministry of Health). The Catalog of Federal Domestic Assistance number for this program is 93.941.

B. Eligible Applicant

Assistance will be provided only to the Hanoi School of Public Health (HSPH).

The award specifically aims to use existing capacity through Schools of Public Health to aid in providing Vietnam governmental agencies additional capacity/training in public health management, information-technology, monitoring and evaluation, and other surveillance activities. Currently, the HSPH is the single school of public health in Vietnam and thus the only appropriate and qualified organization to conduct this specific set of activities supportive of the CDC/GAP. In addition,

(1) The HSPH is uniquely positioned, in terms of legal authority and credibility among Vietnamese health institutions, to provide technical and capacity building assistance in the areas of public health informatics and sustainable management development for public health programs.

(2) The HSPH already has established mechanisms to access public health informatics and sustainable management development information, enabling it to immediately become engaged in the activities listed in this announcement.

(3) The purpose of this announcement is to build upon the existing framework of health information and activities that the HSPH itself has collected or initiated.

(4) The HSPH is organizationally within the MOH and can effectively coordinate and implement HIV prevention and care activities supported by MOH and its other agencies. Although other Vietnam government ministries are involved in HIV prevention and care, currently most activities occur out of MOH.

Cost Sharing or Matching

Matching funds are not required for this program.

C. Funding

Approximately \$200,000 is available in FY 2004 to fund this award. It is expected that the award will begin on or before September 1, 2004, and will be made for a 12-month budget period within a project period of up to 5 years. Funding estimates may change.

Assessment of Youth Interventions in Asembo and Gem, Nyanza Province, Kenya; Notice of Intent To Fund Single Eligibility Award

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2004 funds for a cooperative agreement program to provide a model program for pilot youth interventions in Asembo and Gem, Nyanza Province, Kenya, and for assessment of the impact of these interventions.

The Catalog of Federal Domestic Assistance number for this program is 93.941.

B. Eligible Applicant

Assistance will be provided only to the Institute of Tropical Medicine (ITM), Antwerp, Belgium.

The ITM has a long history of research and effective interventions, in rural Africa, in the areas of HIV/AIDS and other STD. ITM was the first organization to document the extremely high rates of HIV infection in young people in Nyanza province. As a result of this study, ITM established a pilot intervention program, in Asembo, in 2002 to assess in more detail the risk factors in young people, to develop pilot interventions to reduce this risk, and to study the impact of these interventions. ITM is already established in Asembo and enjoys the respect and support of the local community, and studies are currently underway to assess the Parents Matter curriculum. There is no other organization in Asembo and Gem, somewhat remote areas, with the capacity to implement this complex program.

C. Funding

Approximately \$2,000,000 is available in FY 2004 to fund this award. It is expected that the award will begin on or
