

salmon for genetic analysis. Shoreline research locations will include: (1) the Tower Bridge in Sacramento, California; and (2) the city of Ryde, California (RM 24); and Georgiana Slough. Hatchery and wild salmon will then be transported and/or released for tracking by acoustic telemetry receivers in place throughout the Delta. Fish capture and transport will begin in mid-October and continue until early February of the following year; all field activities will be completed by March of each sampling season. USGS requests authorization for an estimated take of 100 wild Sacramento River winter-run Chinook salmon and 38 Central Valley spring-run Chinook salmon, including no more than 15 percent unintentional mortality resulting from handling, transporting and holding, tissue-sampling, invasive tagging, and releasing for tracking by hydroacoustic telemetry arrays.

Small Takes of Marine Mammals Incidental to Specified Activities; Seabird and Pinniped Research Activities in Central California

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of an incidental harassment authorization.

SUMMARY: In accordance with provisions of the Marine Mammal Protection Act (MMPA) as amended, notification is hereby given that an Incidental Harassment Authorization (IHA) to PRBO Conservation Science (PRBO) to take small numbers of marine mammals, by Level B behavioral harassment only, incidental to conducting seabird and pinniped research in central California. **DATES:** This authorization is effective from December 12, 2008, through December 11, 2009.

ADDRESSES: A copy of the IHA and the application are available by writing to P. Michael Payne, Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910–3225, or by contacting one of the individuals listed here (**FOR FURTHER INFORMATION CONTACT**), or online at: <http://www.nmfs.noaa.gov/pr/permits/incidental.htm>. Documents cited in this notice may be viewed, by appointment, during regular business hours, at the aforementioned address and at the Southwest Region, NMFS, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA 90802.

Jeannine Cody or Jaclyn Daly, Office of Protected Resources, NMFS, (301) 713–2289, or Monica DeAngelis, Southwest Regional Office, NMFS, (562) 980–4023.

SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 et seq.) direct

the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by United States citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, notice of a proposed authorization is provided to the public for review.

Authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), and will not have an unmitigable adverse impact on the availability of the species or stock(s) for certain subsistence uses, and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring, and reporting of such taking are set forth.

NMFS has defined “negligible impact” in 50 CFR 216.103 as:

...an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.

Section 101(a)(5)(D) of the MMPA established an expedited process by which citizens of the United States can apply for an authorization to incidentally take small numbers of marine mammals by harassment. Except for certain categories of activities not pertinent here, the MMPA defines “harassment” as:

any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild [“Level A harassment”]; or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering [“Level B harassment”].

Section 101(a)(5)(D) establishes a 45–day time limit for NMFS’ review of an application followed by a 30–day public notice and comment period on any proposed authorizations for the incidental harassment of small numbers of marine mammals. Within 45 days of the close of the comment period, NMFS must either issue or deny the authorization.

Summary of Request

On July 28, 2008, NMFS received an application from PRBO requesting an authorization for the harassment of small numbers of California sea lions (*Zalophus californianus*), Pacific harbor seals (*Phoca vitulina richardsi*), northern elephant seals (*Mirounga angustirostris*), and Steller sea lions (*Eumetopias jubatus*) incidental to
