[Docket No. 50-244]

### R.E. Ginna Nuclear Power Plant, LLC, R.E. Ginna Nuclear Power Plant; Notice of Receipt and Availability for Comment of Request Regarding Release of Part of Site for Unrestricted Use

**AGENCY:** U.S. Nuclear Regulatory  
Commission.

**ACTION:** Notice of receipt and  
availability for comment.

**DATES:** Comments must be provided in  
writing by August 10, 2005.

#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

The Nuclear Regulatory Commission  
(NRC) has received, by letter dated May  
20, 2005, an application filed by R. E.  
Ginna Nuclear Power Plant, LLC (Ginna  
LLC) requesting the release of a part of  
the site for unrestricted use at its R. E.  
Ginna Nuclear Power Plant (Ginna  
Plant), located in Wayne County, New  
York. An NRC administrative review,  
documented in a letter to Ginna LLC  
dated June 29, 2005, found the request  
acceptable to begin a technical review.  
Before approving the proposed partial  
site release, the NRC will need to  
determine that the licensee has met the  
criteria set forth in Section 50.83,  
“Release of part of a power reactor  
facility or site for unrestricted use,” of  
Part 50 of Title 10 of the Code of Federal  
Regulations (10 CFR 50.83). The tract of  
land proposed for release consists of  
two adjacent parcels, comprising a total  
of approximately 15 acres located along  
the western edge of the Ginna Plant site  
boundary, and is entirely outside of the  
Exclusion Area. The release of the part  
of the site would allow Ginna LLC to  
convey the tract of land under a  
Purchase and Sale Contract dated  
September 10, 2002, that was assumed  
from the former licensee of the Ginna  
Plant. Pursuant to this contract  
agreement, the land would be sold to a  
real estate developer for the purpose of  
developing the land for residential use.  
No physical changes to the Ginna Plant  
facility or operational changes are being  
proposed in the application.

The NRC will approve an application  
for partial release of a non-impacted  
area, if it determines that the licensee  
has adequately evaluated the effect of  
releasing the property and has  
adequately justified the classification of  
any release areas as non-impacted.

##### II. Opportunity To Provide Comments

The NRC is providing notice to  
individuals in the vicinity of the facility  
that the NRC is in receipt of this request,  
and will accept written comments  
concerning this proposal by August 10,  
2005. The comments must be submitted  
to the Secretary, U.S. Nuclear  
Regulatory Commission, Washington,  
DC 20555-0001, Attention: Rulemakings  
and Adjudications Staff, and should cite
