Description: The Current Population Survey (CPS) Disability Questions Test will gather information on the disability status of CPS respondents. The BLS will use the data to assess the effectiveness of new questions designed to identify persons with disabilities within the context of the CPS. Additionally, the BLS will be able to evaluate the effect that adding these questions to the CPS on a monthly basis will have on that survey's response rates. Other groups who may find these data to be of interest include veterans groups, educational associations, and disability advocacy groups.

Because the Disability Questions Test is part of the CPS, the same detailed demographic information collected in the CPS will be available on respondents to the Test. Data concerning disabled persons will be possible across characteristics such as sex, race, age, and educational attainment of the respondent.
