

airport operator, under Section 150.21 of FAR Part 150, that the statutorily required consultation has been accomplished.

The FAA has formally received the noise compatibility program for Danbury Municipal Airport, also effective on September 6, 2006. Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before March 9, 2007. The FAA's detailed evaluation will be conducted under the provisions of 14 CFR Part 150, Section 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing non compatible land uses and preventing the introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure map, the FAA's evaluation of the map, and the proposed noise compatibility program are available for examination at the following locations: Danbury Municipal Airport, Danbury, CT. Federal Aviation Administration, New England Region, Airports Division, ANE-600, 16 New England Executive Park, Burlington, Massachusetts 01803.

Questions may be directed to the individual named above under the heading **FOR FURTHER INFORMATION CONTACT**.

Issued in Burlington, Massachusetts, on September 6, 2006.

LaVerne F. Reid,

Manager, Airports Division.
