Program Information

Overview

The Office of Citizen Exchanges welcomes proposals that directly respond to the following thematic areas. Given budgetary limitations, projects for other themes and other countries will not be eligible for consideration under the FY-2004 International Sports Program Initiative.

Training Sports Coaches

The World Summit on Physical Education (Berlin, 1999) stated that a "quality physical education helps children to develop the patterns of interest in physical activity, which are essential for healthy development and which lay the foundation for healthy, adult lifestyles." Coaches are critical to the accomplishment of this goal. A coach not only needs to be qualified to provide the technical assistance required by young athletes to improve, but must also understand how to aid a young person to discover how success in athletics can be translated into achievement in the development of life skills and in the classroom. Projects submitted in response to this theme would be aimed at aiding youth, secondary school and university coaches in the target countries in the development and implementation of appropriate training methodologies, through seminars and outreach. The goal is to ensure the optimal technical proficiency among the coaches participating in the program while also emphasizing the role sports can play in the long-term economic well being of youth.

Youth Sports Management Exchange

Exchanges funded under this theme would help American and foreign youth sport coaches, adult sponsors, and sports associations officials share their experience in managing and organizing youth sports activities, particularly in financially challenging circumstances, and would contribute to better understanding of role of sports as a significant factor in educational success. Americans are in a good position to convey to the foreign counterparts the importance of linking success in sports to educational achievement and how these two factors can contribute to short-term and long-term economic prospects.

Youth With Disability

Exchanges supported by this theme are designed to promote and sponsor sports, recreation, fitness and leisure events for children and adults with physical disabilities. Project goals
