DEPARTMENT OF TRANSPORTATION**Federal Highway Administration****Notice of Final Federal Agency Action on Proposed Transportation Project in Illinois and Indiana**

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of limitation on claims for judicial review of actions by FHWA and other Federal agencies.

SUMMARY: This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. 139(l)(1). The actions relate to a proposed highway project within the Illiana Corridor Study Area, which is generally the area between I–55 in Illinois on the west, I–65 in Indiana on the east, the areas south of US 30 in Will County in Illinois and Lake County in Indiana to the northern portion of Kankakee County in Illinois and the southern portion of Lake County in Indiana. The Federal actions, taken as a result of a tiered environmental review process under the National Environmental Policy Act, 42 U.S.C. 4321–4351 (NEPA), and implementing regulations on tiering, 40 CFR 1502.20, 40 CFR 1508.28, and 23 CFR Part 771, determined certain issues relating to the proposed project. The Tier One decisions will be used by Federal agencies in subsequent proceedings, including decisions whether to grant licenses, permits, and approvals for the proposed highway project. Tier One decisions also may be relied upon by State and local agencies in proceedings on the proposed project.

DATES: By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Tier One Federal agency actions of the proposed highway project will be barred unless the claim is filed on or before July 11, 2013. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: Mr. J. Michael Bowen, P.E., Acting Division Administrator, Federal Highway Administration, 3250 Executive Park Drive, Springfield, Illinois 62703, Phone: (217) 492–4600, Email address: J.Michael.Bowen@dot.gov. SUPPLEMENTARY INFORMATION: Notice is hereby given that the FHWA has issued a Tier One Final Environmental Impact Statement (FEIS) and Record of Decision (ROD) in connection with the proposed highway project within the Illiana Corridor of Illinois and Indiana. Decisions in the Tier One ROD include, but are not limited to the following:

a. The purpose and need for the project, including goals to improve regional mobility, alleviate local system congestion and improve local system mobility, and provide for efficient movement of freight in the Illiana Corridor between I–55 on the west and I–65 on the east.

b. The selection of Corridor B3 that generally starts at I–55 north of Wilmington, Illinois, passes south of the proposed South Suburban Airport, and connects with I–65 north of Lowell, Indiana. It is typically 2,000 feet in width.

c. The elimination from further consideration and study of Corridor A3S2 and Corridor B4.

d. The evaluation of a range of alternatives within Corridor B3 to identify a preferred alignment during the Tier Two NEPA studies. The flexibility will exist, however, to consider alternatives outside of Corridor B3 if necessary to avoid sensitive environmental resources identified as part of the Tier Two environmental field studies, or to address context sensitive design issues in a way that does not materially increase overall impacts. The issue of whether to consider alternatives

outside the selected corridor will be determined in consultation with resource agencies in Tier Two.

Interested parties may consult the ROD and FEIS for further information on each of the decisions described above.

The Tier One actions by the Federal agencies, and the laws under which such actions were taken, are described in the FEIS approved January 17, 2013, the ROD approved January 17, 2013, and in other documents in the FHWA project records. The scope and purpose of the Tier One FEIS are described in Section 1.0 of the FEIS. The FEIS, ROD, and other documents in the FHWA project file are available by contacting the FHWA or the Illinois or Indiana Departments of Transportation at the addresses provided above. The FEIS and ROD also are available online at <http://illianacorridor.org/>.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2012–0337]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to exempt 18 individuals from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs). They are unable to meet the vision requirement in one eye for various reasons. The exemptions will enable these individuals to operate commercial motor vehicles (CMVs) in interstate commerce without meeting the prescribed vision requirement in one eye. The Agency has concluded that granting these exemptions will provide a level of safety that is equivalent to or greater than the level of safety maintained without the exemptions for these CMV drivers.

DATES: The exemptions are effective February 11, 2013. The exemptions expire on February 11, 2015.

FOR FURTHER INFORMATION CONTACT: Elaine M. Papp, Chief, Medical Programs Division, (202)–366–4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE., Room W64–224, Washington, DC 20590–0001. Background

On November 26, 2012, FMCSA published a notice of receipt of exemption applications from certain individuals, and requested comments from the public (77 FR 70534). That notice listed 18 applicants' case histories. The 18 individuals applied for exemptions from the vision requirement in 49 CFR 391.41(b)(10), for drivers who operate CMVs in interstate commerce.

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption." The statute also allows the Agency to renew exemptions at the end of the 2-year period. Accordingly, FMCSA has evaluated the 18 applications on their merits and made a determination to grant exemptions to each of them.

Vision and Driving Experience of the Applicants

The vision requirement in the FMCSRs provides:

A person is physically qualified to drive a commercial motor vehicle if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of a least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° in the horizontal meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing requirement red, green, and amber (49 CFR 391.41(b)(10)).

FMCSA recognizes that some drivers do not meet the vision requirement but have adapted their driving to
