SUPPLEMENTARY INFORMATION:

Title: Importation of Poultry Meat and Other Poultry Products from Sinaloa and Sonora, Mexico.

OMB Number: 0579-0144.

Type of Request: Extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture is responsible for, among other things, regulating the importation into the United States of certain animals and animal products to prevent the introduction of serious pests and diseases of livestock into the United States.

The regulations for the importation of animals and animal products are contained in 9 CFR parts 92 through 98.

The regulations in part 94, among other things, restrict the importation of poultry meat and other poultry products from Mexico and other regions of the world where exotic Newcastle disease (END) has been determined to exist. The regulations allow the importation of poultry meat and poultry products from

the Mexican States of Sinaloa and Sonora under conditions that protect against the introduction of END into the United States.

To ensure that these items are safe for importation, we require that certain data appear on the foreign meat inspection certificate that accompanies the poultry meat or other poultry products from Sinaloa and Sonora. We also require that serially numbered seals be applied to containers carrying the poultry meat or other poultry products.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of Burden: The public reporting burden for this collection of information is estimated to average 1 hour per response.

Respondents: Federal animal health authorities in Mexico, and personnel in Sinaloa and Sonora, Mexico, who operate slaughtering and processing plants and who engage in the export of poultry meat and other poultry products to the United States.

Estimated Annual Number of Respondents: 10.

Estimated Annual Number of Responses Per Respondent: 4.

Estimated Annual Number of Responses: 40.

Estimated Total Annual Burden on Respondents: 40 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 4th day of March 2005.

Elizabeth E. Gaston,

Acting Administrator, Animal and Plant Health Inspection Service.
