On March 28, 2013, the Department of Justice lodged a proposed Consent Decree ("Decree") with the United States District Court for the Eastern District of Virginia in the lawsuit entitled *United States and Commonwealth of Virginia v. Honeywell Resins & Chemicals LLC*, Civil Action No. 3:13CV193.

In this action the United States and the Commonwealth of Virginia filed a complaint against Honeywell Resins & Chemicals LLC ("Honeywell" or "Defendant") seeking injunctive relief and civil penalties under Section 113(b) of the Clean Air Act ("CAA" or "the Act"), 42 U.S.C. 7413(b) and Virginia State Air Pollution Control Law, Virginia Code § 10.1-1300 *et seq.*, and attendant regulations, for the Defendant's alleged violations at the chemical manufacturing facility operated by Honeywell ("Honeywell Plant" or "Facility") located in Hopewell, Virginia. The Defendant operated and/or continues to operate the Facility in violation of various provisions which include failing to meet certain emission limits and operating parameters and failing to comply with certain requirements for testing, monitoring, recordkeeping and reporting. The Consent Decree requires Honeywell to implement enhanced leak detection and repair protocols, conduct a third-party audit to address benzene waste emissions, and install pollution control equipment to control nitrogen oxide emissions from the Facility. The Decree also requires the Defendant to pay the sum of \$1.5 million dollars cash, including interest, to the United States as a civil penalty and \$1.5 million dollars cash, including interest, to the Commonwealth as a civil penalty.

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On April 1, 2013, the Department of Justice lodged a proposed consent decree with the United States District Court for the Central District of Illinois in the lawsuit entitled *United States v. Dominion Energy Inc., Dominion Energy Brayton Point LLC, and Kincaid Generation LLC*, Civ. No. 13-cv-3086 (C.D. Ill.).

In this civil enforcement action under the federal Clean Air Act, the United States alleges that Defendants failed to comply with certain requirements of the Act intended to protect air quality. The complaint seeks injunctive relief and

civil penalties for violations of the Prevention of Significant Deterioration ("PSD") and Title V provisions of the Clean Air Act, 42 U.S.C. 7470–92 and 42 U.S.C. 7661a–7666f, and related state and federal implementing regulations. The complaint alleges that Defendants failed to obtain appropriate permits and failed to install and operate required pollution control devices to reduce emissions of various air pollutants at the Kincaid Power Station, a coal-fired power plant in Kincaid, Illinois.

The proposed consent decree would resolve past Clean Air Act violations and would require Defendants to reduce harmful emissions of sulfur dioxide ("SO₂"), nitrogen oxides ("NO_x"), and particular matter ("PM") at the Kincaid Power Station, as well as the Brayton Point Power Station, a coal-fired power plant located in Somerset, Massachusetts. The reductions would be achieved through emission control requirements and limitations specified by the proposed consent decree, including installation and operation of pollution controls and annual emission caps. In addition, the proposed consent makes permanent the retirement of the State Line Power Station, a recently shut down coal-fired power plant in Hammond, Indiana. Defendants will also spend \$9.75 million to fund environmental mitigation projects that will further reduce emissions and benefit communities adversely affected by pollution from its plants, and pay a civil penalty of \$3.4 million. Defendants recently announced their intention to sell the Kincaid and Brayton Point Power Stations to a subsidiary of Energy Capital Partners, a subsidiary of which, Equipower Resources, also owns and operates several power plants in the Northeast. The proposed consent decree provides a process for any such new owner to be substituted as a party to the consent decree.

The publication of this notice opens a period for public comment on the proposed consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Dominion Energy Inc., Dominion Energy Brayton Point LLC, and Kincaid Generation LLC*, Civ. No. 13–cv–3086 (C.D. Ill.), D.J. Ref. No. 90–5–2–1–09860.
