3. Definitions

For purposes of this announcement, the following definitions apply:

Minority Populations—American Indian or Alaska Native; Asian; Black or African American; Hispanic or Latino; and Native Hawaiian or Other Pacific Islander (42 U.S.C. 300u-6, section 1707 of the Public Health Service Act, as amended.)

Multicultural Partnerships—Multicultural, multi-racial, and multi-ethnic entities comprising organizations and individuals that have come together for a common purpose and that function independently on behalf of the partnership's members to address health disparities within communities of color.

State and Territorial Office of Minority Health—An entity formally established by Executive Order, statute, or a state health officer to improve the health of racial and ethnic populations.

Systems Change—An effort to ensure that the resources and infrastructure necessary are available and accessible to address minority health and health disparities as well as the public health and health care needs of the American population in general. Structural and functional components of the system must also be present—components such as information, data, and evaluation capabilities; trained, motivated, and culturally/linguistically appropriate staff; and facilities, equipment, and technologies appropriate for the needs of public health/health care professionals and the people they serve.

Dated: June 5, 2007.

Garth N. Graham,

Deputy Assistant Secretary for Minority Health.

Office of the Secretary

Findings of Research Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) and the Assistant Secretary for Health have taken final action in the following case:

Wei Jin, Colorado State University: Based on an investigation conducted by Colorado State University (CSU) and additional analysis and information obtained by the Office of Research Integrity during its oversight review, the U.S. Public Health Service (PHS) found that Mr. Wei Jin, former doctoral candidate, Department of Chemistry, CSU, engaged in research misconduct in research funded by National Cancer Institutes (NCI), National Institutes of Health (NIH), grant R01 CA85419.

Specifically, Mr. Jin falsified data/results by claiming he had performed a novel total synthesis of renieramycin G, when in fact, he obtained renieramycin G through a relatively simple reaction sequence from renieramycin M, a natural product that was a gift to the laboratory and that had been isolated by others from the Thai sponge. Mr. Jin included the falsified data/results in:

- His research notebooks and other records of his research;
- His dissertation, "Asymmetric total synthesis of (–)-Reineramycin G and studies toward the total synthesis of Ecteinasidin-743";
- A manuscript, Jin, W. & Williams, R., "Asymmetric total synthesis of (–)-Renieramycin G," accepted by the *Journal of the American Chemical Society*; and
- Supplemental information relative to the manuscript to be published online.

ORI has implemented the following administrative actions for a period of three (3) years, beginning on May 8, 2007:

(1) Mr. Jin is debarred from eligibility for any contracting or subcontracting with any agency of the United States Government and from eligibility or involvement in nonprocurement programs of the United States Government referred to as "covered transactions" as defined in HHS' implementation of OMB Guidelines to Agencies on Government-wide Debarment and Suspension at 2 CFR Part 376, et seq.; and

(2) Mr. Jin is prohibited from serving in any advisory capacity to PHS,

including but not limited to service on any PHS advisory committee, board, and/or peer review committee, or as a consultant.
