Comments regarding these information collections are best assured of having their full effect if received by May 16, 2013. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control

number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Rural Housing Service

Title: 7 CFR 1951-F, Analyzing Credit Needs and Graduation Review.

OMB Control Number: 0575-0093.

Summary of Collection: Section 333 of the Consolidated Farm and Rural Development Act and Section 502 of the Housing Act of 1949, requires the Rural Housing Service (RHS), to graduate their direct loan borrowers to other credit when they are able to do so. Graduation is an integral part of Agency lending, as Government loans are not meant to be extended beyond a borrower's need for subsidized rates of non-market terms. The notes, security instruments, or loan agreements of most borrowers require borrowers to refinance their Agency loans when other credit becomes available at reasonable rates and terms. If the borrower finds other credit is not available at reasonable rates and terms, the Agency will continue to review the borrower for possible graduation at periodic intervals. Information will be collected from the borrowers concerning their loans.

Need and Use of the Information: The information submitted by RHS borrowers to Agency offices is used to graduate direct borrowers to private credit with or without the use of Agency loan guarantees. At minimum, the financial information must include a balance sheet and an income statement. Other financial data collected will include information such as income, farm operating expenses, asset values, and liabilities.

Description of Respondents: Farms; Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 210.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 430.

Departmental Information Collection Clearance Officer.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: American Community Survey.

OMB Control Number: 0607-0810.

Form Number(s): ACS-1, ACS-1(SP), ACS-1PR, ACS-1PR(SP), ACS CATI(HU), ACS CAPI(HU), ACS Internet (HU), ACS-1(GQ), ACS-1(GQ)(PR).

Type of Request: Revision of a currently approved collection.

Burden Hours: 2,455,868.

Number of Respondents: 3,760,000.

Average Hours per Response: 40 minutes for the average household questionnaire.

Needs and Uses: The U.S. Census Bureau requests authorization from the Office of Management and Budget (OMB) for revisions to the American Community Survey (ACS). The Census Bureau has developed a methodology to collect and update demographic, social, economic, and housing data every year that are essentially the same as the "long-form" data that the Census Bureau traditionally has collected once a decade as part of the decennial census. Federal and state government agencies use such data to evaluate and manage federal programs and to distribute funding for various programs that include food stamp benefits, transportation dollars, and housing grants. State, county, and community governments, nonprofit organizations, businesses, and the general public use information like housing quality, income distribution, journey-to-work patterns, immigration data, and regional age distributions for decision-making and program evaluation.

In years past, the Census Bureau collected the long-form data only once every ten years and it became out of date over the course of the decade. To provide more timely data, the Census Bureau developed the ACS. The ACS blends the strength of small area estimation with the high quality of current surveys. There is an increasing need for current data describing lower geographic detail. The ACS is now the
