Additional features of the service include online document proofing, a "file cabinet" that retains customer jobs for 30 days and offers document and mailing list management capabilities, real-time status reports of jobs submitted, and a quick calculator that provides immediate price quotations.

This final rule announces the expansion of the NetPost Mailing Online service for mailings of letters and flats at Nonprofit Standard Mail automation rates effective with the date shown above. For additional information concerning system specifications, payment procedures, user assistance, and mail matter classification assistance see 65 FR 52308-52313 (August 29, 2000), and DMM G091.

The Nonprofit Standard Mail option applies to eligible mail matter sent by authorized organizations as listed and defined in DMM E670.2.0 and E670.3.0. Mail matter eligible to be sent at Nonprofit Standard Mail rates by authorized parties is defined in DMM E670.5.0.

This final rule contains the DMM standards adopted by the Postal Service to implement the Nonprofit Standard Mail option. It also corrects a previous omission by adding "cards" to "letters" and "flats" as First-Class Mail options.

These changes are being incorporated into the *Domestic Mail Manual* (DMM) and subsequently into a publication, which will identify requirements and specifications to assist mailers in designing their shipping labels.

EFFECTIVE DATE: April 5, 2001.

FOR FURTHER INFORMATION CONTACT: John Gullo, 202-268-7322.

SUPPLEMENTARY INFORMATION: On December 1, 2000, the Postal Service published in the **Federal Register** proposed changes to the shipping label requirements (65 FR 75210). No comments were received so the Postal Service is adopting the following requirements.

3.3 Printing

[Replace item a with the following:]

a. Each barcoded label must bear a unique Delivery Confirmation PIC barcode as specified in 3.2. The text "USPS DELIVERY CONFIRMATION" (if using retail service option, as specified in 1.4) or "e/USPS DELIVERY CONFIRMATION" (if using electronic service option, as specified in 1.4, and the postage is evident on the mailpiece) must be printed between $\frac{1}{8}$ inch and $\frac{1}{2}$ inch above the barcode in minimum 12-

point bold sans serif type. Additionally, mailers approved for the electronic service option, at their discretion, may print the text "ELECTRONIC RATE APPROVED #[D-U-N-S® (NUMBER)]" in minimum 8-point bold sans serif type directly below the bottom horizontal identification bar (see Exhibit 3.3). Human-readable characters that represent the barcode ID must be printed between $\frac{1}{8}$ inch and $\frac{1}{2}$ inch under the barcode in minimum 10-point bold sans serif type. These characters must be parsed in accordance with Publication 91, Confirmation Services Technical Guide. A minimum $\frac{1}{8}$ -inch clearance must be between the barcode and any printing. The preferred range of widths of narrow bars and spaces is 0.015 inch to 0.017 inch. The width of the narrow bars or spaces must be at least 0.013 inch but no more than 0.021

inch. All bars must be at least $\frac{3}{4}$ inch high. Minimum $\frac{1}{16}$ -inch bold bars must appear between $\frac{1}{8}$ inch and $\frac{1}{2}$ inch above and below the human-readable endorsements to segregate the Delivery Confirmation barcode from other areas of the shipping label. The line length should extend across the width of the label but must extend the length of the barcode at a minimum (see Exhibit 2.1c). Only information relating to Delivery Confirmation and/or other special services must be placed between these lines. Mailers will be required to comply with this change by October 5, 2001.

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Parts 9, 141 and 142**

[WH-FRL-6958-3]

RIN 2040-AB75

National Primary Drinking Water Regulations; Arsenic and Clarifications to Compliance and New Source Contaminants Monitoring; Delay of Effective Date**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule; delay of effective date.

SUMMARY: In accordance with the memorandum of January 20, 2001, from the Assistant to the President and Chief of Staff, entitled "Regulatory Review Plan," published in the **Federal Register** on January 24, 2001, this action temporarily delays for 60 days the effective date of the rule entitled National Primary Drinking Water Regulations; Arsenic and Clarifications to Compliance and New Source Contaminants Monitoring, published in the **Federal Register** on January 22, 2001, 66 FR 6976. That rule establishes a health-based, non-enforceable Maximum Contaminant Level Goal for arsenic of zero and an enforceable Maximum Contaminant Level for arsenic of 0.01 mg/L (10 ug/L) for public water systems. In addition, it clarifies monitoring and demonstration of compliance for new systems or sources of drinking water. It also clarifies compliance for State-determined

monitoring after exceedances for inorganic, volatile organic, and synthetic organic contaminants. Finally, it recognizes the State-specified time period and sampling frequency for new public water systems and systems using a new source of water to demonstrate compliance with drinking water regulations.

DATES: The effective date of the National Primary Drinking Water Regulations; Arsenic and Clarifications to Compliance and New Source Contaminants Monitoring, amending 40 CFR Parts 9, 141 and 142, published in the **Federal Register** on Monday, January 22, 2001, at 66 FR 6976, is delayed for 60 days, from the originally scheduled effective date of March 23, 2001, to a new effective date of May 22, 2001, except for the amendments to §§ 141.23(i)(1), 141.23(i)(2), 141.24(f)(15), 141.24(h)(11), 141.24(h)(20), 142.16(e), 142.16(j), and 142.16(k) which are effective January 22, 2004. The amendment to § 141.6 in this rule is also effective May 22, 2001.

FOR FURTHER INFORMATION CONTACT: For information on today's action, contact Cynthia Dougherty, Director, Office of Ground Water and Drinking Water (4601), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, phone: (202) 260-5543.

SUPPLEMENTARY INFORMATION: To the extent that 5 U.S.C. 553 applies to this action, it is exempt from notice and comment because it constitutes a rule of procedure under 5 U.S.C. 553(b)(A). Alternatively, the Agency's implementation of this action without opportunity for public comment, effective immediately upon publication today in the **Federal Register**, is based on the good cause exceptions in 5 U.S.C. 553(b)(B) and 553(d)(3). Seeking public comment is impracticable, unnecessary and contrary to the public interest. The

temporary 60-day delay in effective date is necessary to give Agency officials the opportunity for further review and consideration of new regulations, consistent with the Assistant to the President's memorandum of January 20, 2001. Given the imminence of the effective date, seeking prior public comment on this temporary delay would have been impractical, as well as contrary to the public interest in the orderly promulgation and implementation of regulations. The imminence of the effective date is also good cause for making this rule immediately effective upon publication.
