BILLING CODE 8011-01-P

SOCIAL SECURITY ADMINISTRATION

[Docket No SSA-2022-0035]

Agency Information Collection Activities: Proposed Request and Comment Request

The Social Security Administration (SSA) publishes a list of information collection packages requiring clearance by the Office of Management and Budget (OMB) in compliance with Public Law 104-13, the Paperwork

Reduction Act of 1995, effective October 1, 1995. This notice includes one new collection and revisions of OMB-approved information collections.

SSA is soliciting comments on the accuracy of the agency’s burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility, and clarity; and ways to minimize burden on respondents, including the use of automated collection techniques or other forms of information technology. Mail, email, or fax your comments and recommendations to the information collection(s) to the OMB Desk Officer and SSA Reports Clearance Officer at the following addresses or fax numbers. (OMB) Office of Management and Budget, Attn: Desk Officer for SSA

Comments: <https://www.reginfo.gov/public/do/PRAMain>. Submit your comments online referencing Docket ID Number [SSA-2022-0035].

I. The information collections below are pending at SSA. SSA will submit them to OMB within 60 days from the date of this notice. To be sure we consider your comments, we must receive them no later than September 23, 2022. Individuals can obtain copies of the collection instruments by writing to the above email address.

1. *Application for Child’s Insurance Benefits—20 CFR 404.350-404.368, 404.603, & 416.350-0960-0010.* Title II of the Social Security Act (Act) provides for the payment of monthly benefits to children of an insured retired, disabled, or deceased worker. Section 202(d) of the Act discloses the conditions and requirements the applicant must meet when filing an application. SSA uses the information on Form SSA-4-BK to determine entitlement for children of living and deceased workers to monthly Social Security payments. Respondents are guardians completing the form on behalf of the children of living or deceased workers, or the children of living or deceased workers.

Type of Request: Revision of an OMB-approved information collection.

2. *Statement for Determining Continuing Eligibility, Supplemental Security Income Payment(s)—416.204-0960-0416.* SSA conducts redeterminations of disability to determine whether Supplemental Security Income (SSI) recipients: (1) have met and continue to meet all

statutory and regulatory requirements for SSI eligibility and (2) are receiving the correct SSI payment amount. SSA makes these redeterminations through periodic use of Form SSA-8203-BK. SSA conducts this legally mandated information collection in field offices via personal contact (face-to-face or

telephone interview) using the automated SSI Claim System.

The respondents are SSI recipients or their representative payees.

3. Request to Withdraw a Hearing Request; Request to Withdraw an Appeals Council Request for Review; and Administrative Review Process for Adjudicating Initial Disability Claims—20 CFR parts 404, 405, and 416—0960–0710. Claimants have a statutory right under the Act and current regulations to apply for Social Security Disability Insurance (SSDI) benefits SSI payments. SSA collects information at each step of

the administrative process to adjudicate claims fairly and efficiently. SSA collects this information to establish a claimant's right to administrative review, and determine the severity of the claimant's alleged impairments. SSA uses the information we collect to determine entitlement or continuing eligibility to SSDI benefits or SSI payments, and to enable appeals of these determinations. In addition, SSA

collects information on Forms HA–85 and HA–86 to allow claimants to withdraw a hearing request or an Appeals Council review request. The respondents are applicants for Title II SSDI or Title XVI SSI benefits; their appointed representatives; legal advocates; medical sources; and schools.

4. *Electronic SSDI and SSI Wage Reporting: myWageReport, SSA Mobile Wage Reporting, and Supplemental Security Income Telephone Wage Reporting—20 CFR 404.1520(b), 404.1571–1576, 404.1584–1593, & 416.701–416.732—0960–0715.* SSA requires SSDI beneficiaries or their representative payees to report changes when beneficiaries return to work, when their amount of work increases, or when their earnings increase. Similarly, SSA requires recipients of SSI, their deemors, and representative payees to report changes in work and monthly

wages. SSA allows SSDI beneficiaries, SSI recipients, deemors, and representative payees to report earnings via electronic means, though the methods available depend on the type of benefits received. SSDI users may report wages using an internet reporting system called myWageReport. myWageReport is a secure internet reporting tool within the mySSA portal that enables SSDI beneficiaries to submit pay stub information to SSA. In addition to myWageReport, SSI users have two other electronic options, the SSA Mobile Wage Reporting application

(SSAMWR) and the SSI Telephone Wage Reporting System (SSITWR). The SSITWR allows callers to report their wages by speaking their responses through voice recognition technology, or by keying in responses using a telephone key pad. The SSAMWR allows recipients to report their wages through the mobile wage reporting application on their smartphone. SSITWR and SSAMWR systems collect the same information and send it to SSA over secure channels. To ensure the security of the information provided, SSITWR and SSAMWR ask respondents

to provide information SSA can compare against our records for authentication purposes. Once the system authenticates the identity of the

respondents, they can report their wage data. The respondents are SSDI beneficiaries, SSI recipients, SSI deemors, or representative payees.

* SSI respondents complete training and a modality of collection. SSA is not able to break down the number of new wage reporters who receive training and long-time wage reporters who did not receive training; therefore, the actual number may be less than the estimate we provided. SSA collects management information data based on the number of transactions; the number of respondents has been extrapolated from that number. We do not collect MI on unique reporters.

** We based this figure by averaging both the average DI payments based on SSA's current FY 2022 data (<https://www.ssa.gov/legislation/2022factsheet.pdf>), and the average U.S. worker's hourly wages, as reported by Bureau of Labor Statistics data (https://www.bls.gov/oes/current/oes_nat.htm).

5. Government-to-Government Services Online website Registration Form; Government-to-Government Services Online website Account Modification/Deletion Form—20 CFR 401.45—0960-0757. The Government-to-Government Services Online (GSO) website allows various external organizations to submit files to a variety of SSA systems and, in some cases, receive files in return. The SSA systems that process data transferred via GSO

include, but are not limited to, systems responsible for disability processing and benefit determination or termination. SSA uses the information on Form SSA-159, GSO website Registration Form, to register the requestor to use the GSO website. Once we receive the SSA-159, SSA provides the user with account information and conducts a walkthrough of the GSO website as necessary. Established organizations may submit Form SSA-159 to register

additional users as well. The established requesting organizations can also complete Form SSA-160, GSO website Account Modification/Deletion Form, to modify their online accounts (e.g., address change). Respondents are State and local government agencies, and some private sector business entities.

6. Application Status—20 CFR 401.45—0960-0763. Application Status provides users with the capability to check the status of their pending Social Security claims via the National 800 Number Automated Telephone Service. Users need their SSN and a confirmation number to access this information. SSA systems determine the

type of claim(s) the caller filed based upon the information provided. Subsequently, the automated telephone system provides callers with the option to choose the claim for which they wish to obtain status. If the caller applied for multiple claims, the automated system allows the caller to select only one claim at a time. Once callers select the

claim(s) they are calling about, an automated voice advises them of the status of their claim. The respondents are current Social Security claimants who wish to check on the status of their claims.

Type of Request: Revision of an OMB-approved information collection.

7. *Report of Adult Functioning—Employer—20 CFR 404.1512 and 416.912—0960–0805.* Under the authority provided in sections 205(a), 223(d)(5)(A), 1631(d)(1), and 1631(e)(1) of the Act, the agency may collect information from each applicant for, or recipient of (collectively referred to as “claimant”), disability insurance benefits (DIB) or SSI payments. We use this information as evidence to help us determine eligibility or continued eligibility for DIB or SSI. These sections of the Act grant us the authority to establish procedures for collecting and verifying this evidence. Sections 20 CFR 404.1512 and 20 CFR 416.912 of the Code of Federal Regulations provide detailed requirements for the types of evidence we request claimants provide showing how their impairment(s) affects

their ability to work (e.g., medical, work experience, daily activities, efforts to work). When SSA’s Disability Determination Service adjudicative team determines that SSA needs additional information to process an applicant’s or claimant’s case, we use Form SSA–3385, Report of Adult Functioning—Employer, to collect information from a claimant’s current or former employer on an as needed basis, to collect information regarding the claimant’s job performance as evidence to help inform the disability eligibility for the claimant. We send the SSA–3385 with a pre-addressed and stamped envelope to a claimant’s direct supervisor, or another person who has direct knowledge of the claimant’s job performance and ask that individual to provide information about the

claimant’s day-to-day functioning in a work setting. The respondent completes Form SSA–3385 and sends it back to SSA in the enclosed envelope. Once SSA receives the SSA–3385, the field office scans the form into the claimant’s electronic folder. Then the Disability Determination Service adjudicative team uses this information to evaluate the claimant’s impairment-related functional limitations to determine eligibility or continued eligibility for SSDI or SSI. The respondents are current or former employers who are contacted only when the adjudicative team decides additional information is necessary and the employer may be a good source for the information.

II. SSA submitted the information collection below to OMB for clearance. Your comments regarding this information collection would be most useful if OMB and SSA receive them 30 days from the date of this publication. To be sure we consider your comments, we must receive them no later than August 24, 2022. Individuals can obtain copies of this OMB clearance package by writing to *OR.Reports.Clearance@ssa.gov*.

Enterprise Scheduling System (ESS)—0960 NEW. The Enterprise Scheduling System (ESS) will provide a better respondent and employee experience. The first ESS release is specific to allowing self-scheduling for enumeration services. ESS subsequent releases will expand services for other appointment needs. Through ESS respondent self-scheduling and technician scheduling, SSA will collect specific information about respondents

(e.g., respondent: name, address, zip code, telephone number, and email address). In addition, we ask the respondent to consent to receive optional electronic messaging or opt out; electronic message preference (email/text), if respondents provide consent; language preferences (English/Spanish); respondent’s preferred office to receive service; and appointment (day and time preference) to schedule an in-office appointment to process a request for an original SSN or replacement Social Security card. In addition, we will ask respondents scheduling their initial appointment through a technician to create a one-time passcode to securely allow online updates to their appointment. The technician will document the one-time passcode with the respondent’s other appointment preferences. Respondents will use ESS to complete required screens and fields

to select a date and time for an appointment at an SSA field office (FO) to provide the proofs necessary to obtain a replacement or original SSN card. Respondents can complete the online collection themselves. If respondents encounter issues with ESS, they may contact SSA by phone to complete scheduling the appointment through a technician. We will integrate ESS with VIPr Mobile check-in functions, so ESS respondents will have the option to check-in for their appointment using Mobile check-in on their personal device, instead of checking in at the kiosk. Using VIPr, SSA employees can request walk-in visitors and individuals with appointments to come into the office. The respondents are individuals looking to schedule their own SSA visit using ESS.
