

required level of safety mandated by statute.

The physical qualification standard found in § 391.41(b)(4) states that a person is physically qualified to drive a CMV if that person has no current clinical diagnosis of myocardial infarction, angina pectoris, coronary insufficiency, thrombosis, or any other cardiovascular disease of a variety known to be accompanied by syncope, dyspnea, collapse, or congestive cardiac failure.

In addition to the regulations, FMCSA has published advisory criteria¹ to assist medical examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce. The advisory criteria states that ICDs are disqualifying due to risk of syncope.

III. Qualifications of Applicants

Michael Bianculli

Mr. Bianculli is a CMV driver in Massachusetts. A December 3, 2021, letter from Mr. Bianculli's cardiologist reports that an ICD was implanted in September 2021, for primary prevention. His cardiologist reports that he has never had cardiac arrest or loss of consciousness, his ICD has never fired, his cardiac function is normal, and he has no symptoms attributed to his cardiac condition.

Kelly Lemus

Ms. Lemus is a CMV driver in the state of Washington. An April 1, 2021, letter from Ms. Lemus' cardiologist reports that an ICD was implanted in November 2011, after recurrent episodes of syncope. No documentation of sustained arrhythmias or therapies have been delivered from the ICD since implantation. Ms. Lemus has routine scheduled follow ups with cardiology.

IV. Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315(b), FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all comments received before the close of business on the closing date indicated under the **DATES** section of the notice.

Larry W. Minor,

Associate Administrator for Policy.

BILLING CODE 4910-EX-P

¹ These criteria may be found in 49 CFR part 391, Appendix A to Part 391—Medical Advisory Criteria, Section D. Cardiovascular: § 391.41(b)(4), paragraph 4, which is available on the internet at <https://www.gpo.gov/fdsys/pkg/CFR-2015-title49-vol5/pdf/CFR-2015-title49-vol5-part391-appA.pdf>.

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

[Docket No.: PHMSA-2022-0008; Notice No. 2022-03]

Hazardous Materials: Request for Comments on Issues Concerning International Atomic Energy Agency Regulations for the Safe Transport of Radioactive Materials

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), Department of Transportation (DOT).

ACTION: Notice; request for comments.

SUMMARY: PHMSA and the U.S. Nuclear Regulatory Commission are jointly seeking comments on issues concerning requirements in the International Atomic Energy Agency (IAEA) regulations for the safe transport of radioactive materials. The IAEA is considering revisions to their regulations as part of its periodic review cycle for a new edition.

DATES: Submit comments by March 4, 2022. Comments received after this date will be considered if it is practical to do so; however, we are only able to assure consideration for proposals received on or before this date.

ADDRESSES: You may submit comments identified by the docket number (PHMSA-2022-0008) by any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Fax:* 1-202-493-2251.

- *Mail:* Docket Operations, U.S. Department of Transportation, West Building, Ground Floor, Room W12-140, Routing Symbol M-30, 1200 New Jersey Avenue SE, Washington, DC 20590.

- *Hand Delivery:* To Docket Operations, Room W12-140 on the ground floor of the West Building, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except federal holidays.

Instructions: All submissions must include the agency name and docket number for this notice at the beginning of the comment. Note that all comments received will be posted without change to the docket management system, including any personal information provided.

Docket: For access to the dockets to read background documents or comments received, go to <http://www.regulations.gov>, or DOT's Docket Operations Office (see **ADDRESSES**).

Privacy Act: Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the document (or signing the document, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477) or you may visit <http://www.regulations.gov>.

Confidential Business Information (CBI): CBI is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this notice contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this notice, it is important that you clearly designate the submitted comments as CBI. Please mark each page of your submission containing CBI as "PROPIN." PHMSA will treat such marked submissions as confidential under the FOIA, and they will not be placed in the public docket of this notice. Submissions containing CBI should be sent to Rick Boyle, Sciences and Engineering Division, (202) 366-4545, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, 1200 New Jersey Avenue SE, Washington, DC 20590-0001. Any commentary that PHMSA receives which is not specifically designated as CBI will be placed in the public docket for this notice.

FOR FURTHER INFORMATION CONTACT: Mr. Rick Boyle, Sciences and Engineering Division, (202) 366-4545, Pipeline and Hazardous Materials Safety Administration.

SUPPLEMENTARY INFORMATION:

I. Background

The International Atomic Energy Agency (IAEA) works with its Member States and multiple partners worldwide to promote safe, secure, and peaceful nuclear technologies. The IAEA established and maintains an international standard, *Regulations for the Safe Transport of Radioactive Material (SSR-6 (Rev. 1))*, to promote the safe and secure transportation of radioactive material. The IAEA periodically reviews and, as deemed appropriate, revises its regulations to reflect new information and

accumulated experience. The Department of Transportation (DOT) is the U.S. competent authority for radioactive material transportation matters. The U.S. Nuclear Regulatory Commission (NRC) provides technical support to DOT in this regard, particularly regarding Type B and other fissile transportation packages.

The IAEA recently initiated a review cycle for its regulations. This is a first step in the review cycle for the IAEA transport regulations, but it does not constitute a decision to revise the transport regulations. To assure opportunity for public participation in the international regulatory development process, DOT and NRC are soliciting comments and information pertaining to issues with the IAEA regulations.

The focus of this solicitation is to identify issues or concerns with SSR-6 (Rev. 1). SSR-6 (Rev. 1) can be found online at https://www-pub.iaea.org/MTCD/Publications/PDF/PUB1798_web.pdf.

The IAEA requests that any proposal for a change in the transport regulations should demonstrate that the proposed change is:

- Required to ensure safety and to protect people, property, and the environment from harmful effects of ionizing radiation during the transport of radioactive material.
- Needed to define or redefine the level of protection of people, property, and the environment from harmful effects of ionizing radiation during the transport of radioactive material.
- Required for consistency within the Transport Regulations.
- Required as a result of advances in technology.
- Needed to improve implementation of the Transport Regulations.

The IAEA also requests that a submission of an identified problem in the regulations for which new text is not proposed should also demonstrate a clear link to the criteria outlined above. Comments and proposed changes should reference the particular paragraphs of concern in SSR-6 (Rev. 1).

This information, and any associated discussions, will assist DOT in examining the full range of views and alternatives as the agency develops proposals to be submitted to the IAEA for consideration. DOT has not yet fully harmonized its US regulations with the 2012 and 2018 editions of SSR-6. DOT will follow its normal rulemaking procedures in any action to harmonize requirements for domestic and international transportation of radioactive materials. This call for input

to the IAEA process is separate from any future or current domestic rulemakings.

II. Public Participation

PHMSA and the NRC are jointly seeking comments on issues concerning requirements in SSR-6 (Rev. 1). The IAEA is considering revisions to the SSR-6 (Rev. 1) regulations as part of its periodic review cycle for a new edition. Proposals must be submitted in writing (electronic file in Microsoft Word format preferred).

DOT and NRC will review the proposed issues and identified problems. Proposed issues and identified problems from all Member States and International Organizations will be initially considered at an IAEA Transport Safety Standards Committee (TRANSSC) Meeting to be convened by IAEA on June 20–24, 2022, in Vienna, Austria. The subsequent meeting of TRANSSC, to be held in November 2022, will determine whether the aggregate of the accepted proposed changes amounts to a change in requirements that is important in terms of safety. If this is the case, a revision of the transport regulations will be initiated by the IAEA. If there is no safety imperative, the issues agreed upon will be considered during the next review cycle scheduled to start in 2023.

Issued in Washington, DC, on February 11, 2022.

William S. Schoonover,

Associate Administrator for Hazardous Materials Safety, Pipeline and Hazardous Materials Safety Administration.

BILLING CODE 4910-60-P

DEPARTMENT OF THE TREASURY

Office of the Comptroller of the Currency

Agency Information Collection Activities: Information Collection Renewal; Comment Request; Interagency Appraisal Complaint Form

AGENCY: Office of the Comptroller of the Currency, Treasury (OCC).

ACTION: Notice and request for comment.

SUMMARY: The Office of the Comptroller of the Currency (OCC) as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on an information collection renewal as required by the Paperwork Reduction Act of 1995. An agency may not conduct or sponsor, and a respondent is not required to respond

to, an information collection unless it displays a currently valid OMB control number. The OCC is soliciting comment concerning the renewal of its information collection titled “Interagency Appraisal Complaint Form.”

DATES: Comments must be received by April 18, 2022.

ADDRESSES: Commenters are encouraged to submit comments by email, if possible. You may submit comments by any of the following methods:

- *Email:* prainfo@occ.treas.gov.
- *Mail:* Chief Counsel’s Office, Attention: Comment Processing, Office of the Comptroller of the Currency, Attention: 1557–0314, 400 7th Street SW, Suite 3E–218, Washington, DC 20219.
- *Hand Delivery/Courier:* 400 7th Street SW, Suite 3E–218, Washington, DC 20219.
- *Fax:* (571) 465–4326.

Instructions: You must include “OCC” as the agency name and “1557–0314” in your comment. In general, the OCC will publish comments on www.reginfo.gov without change, including any business or personal information provided, such as name and address information, email addresses, or phone numbers. Comments received, including attachments and other supporting materials, are part of the public record and subject to public disclosure. Do not include any information in your comment or supporting materials that you consider confidential or inappropriate for public disclosure.

You may review comments and other related materials that pertain to this information collection beginning on the date of publication of the second notice for this collection by the method set forth in the next bullet. Following the close of this notice’s 60-day comment period, the OCC will publish a second notice with a 30-day comment period.

- *Viewing Comments Electronically:* Go to www.reginfo.gov. Hover over the “Information Collection Review” tab. Underneath the “Currently under Review” section heading, from the drop-down menu select “Department of Treasury” and then click “submit”. This information collection can be located by searching by OMB control number “1557–0314” or “Interagency Appraisal Complaint Form.” Upon finding the appropriate information collection, click on the related “ICR Reference Number.” On the next screen, select “View Supporting Statement and Other Documents” and then click on the link to any comment listed at the bottom of the screen.
