

standards requested in the application. This notice is being issued to correct an incorrect standard referenced in FRN (83 FR 36625) and to allow for public comment on the one remaining standard (UL 698A).

Table 1 lists the appropriate test standard found in TUVRNA's application for expansion for testing and certification of products under the NRTL Program.

TABLE 1—PROPOSED LIST OF APPROPRIATE TEST STANDARD FOR INCLUSION IN TUVRNA'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 698A ..	Standard for Industrial Control Panels Relating to Hazardous (Classified) Locations.

III. Preliminary Findings on the Application

TUVRNA submitted an acceptable application for expansion of scope of recognition. OSHA's review of the application file and pertinent documentation indicates that TUVRNA can meet the requirements prescribed by 29 CFR 1910.7 for expanding recognition to include the addition of this one test standard for NRTL testing and certification listed above. This preliminary finding does not constitute an interim or temporary approval of TUVRNA's application.

OSHA welcomes public comment as to whether TUVRNA meets the requirements of 29 CFR 1910.7 for expansion of recognition as a NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if the request is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, at the above address. These materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2007-0042.

OSHA will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will make a recommendation to the Assistant Secretary for Occupational Safety and

Health whether to grant TUVRNA's application for expansion of its scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of its final decision in the **Federal Register**.
