

The County's submission clearly has provided sufficient documentation that the relevant manufactured goods are not produced in the United States in sufficient and reasonably available quantity and of a satisfactory quality to meet its technical specifications.

The April 28, 2009 EPA Headquarters Memorandum, "Implementation of Buy American provisions of Public Law 111-5, the American Recovery and Reinvestment Act of 2009," defines "satisfactory quality" as "the quality of steel, iron or manufactured goods specified in the project plans and designs."

EPA's national contractor prepared a technical assessment report dated July 14, 2010 based on the submitted waiver request. The report determined that the waiver request submittal was complete, that adequate technical information was provided, but did not agree with the County that there were no available U.S. manufacturers that produced the wafer check valves. Subsequently, on September 30, 2010, the EPA contractor prepared an amended technical assessment report based on supplemental information provided by Hernando County and determined a waiver was supported by the available evidence. The purpose of the ARRA provisions was to stimulate economic recovery by funding current infrastructure construction, not to delay projects that are already shovel ready by requiring entities, like the County, to revise their design and potentially choose a more costly and less efficient project. The imposition of ARRA Buy American requirements on such projects would result in unreasonable delay and thus displace the "shovel ready" status for this project. To further delay construction is in direct conflict with the most fundamental economic purposes of ARRA: To create or retain jobs.

The Region 4 Grants and Infrastructure Branch has reviewed this waiver request and has determined that the supporting documentation provided by the County is sufficient to meet the criteria listed under ARRA Section 1605(b), OMB's regulation at 2 CFR 176.100 and the aforementioned EPA Headquarters Memorandum of April 28, 2009. ARRA Section 1605(b)(2) permits a waiver if "iron, steel, and manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality." This waiver request meets this criterion and is justified.

The March 31, 2009, Delegation of Authority Memorandum provided Regional Administrators with the

authority to issue exceptions to Section 1605 of ARRA within the geographic boundaries of their respective regions and with respect to requests by individual grant recipients.

Having established both a proper basis to specify the particular good required for this project and that application of the *Buy American requirements* would be inconsistent with the public interest, the County is hereby granted a waiver from the *Buy American requirements*. Having established both a proper basis to specify the particular good required for this project, and that this manufactured good was not available from a producer in the United States, Hernando County Utilities Department is granted a waiver from the *Buy American requirements of Section 1605(a) of Public Law 111-5* for the purchase of four wafer swing check valves as specified in the County's request of July 02, 2010, with supplemental information provided on September 7, 2010. This supplementary information constitutes the detailed written justification required by Section 1605(c) for waivers "based on a finding under subsection 9b." requirements of Section 1605(a) of Public Law 111-5.

Authority: Pub. L. 111-5, section 1605.

Dated: December 20, 2010.

A. Stanley Meiburg,

Acting Regional Administrator, Region 4.
