On March 15, 2023, the presiding ALJ granted Mianyang BOE Optoelectronics Technology Co., Ltd.'s ("Mianyang BOE") unopposed motion to intervene as a respondent in this investigation and accorded Mianyang BOE respondent status. (Order No. 7) (Mar. 15, 2023) *unreviewed by*, Comm'n Notice (Mar. 22, 2023).

On March 10, 2023, Samsung Display moved for leave to amend the complaint and notice of investigation to add allegations of infringement related to claims 1–6, 10, 12, 17, 19, 21–23, 40–47, and 51–52 of U.S. Patent No. 11,594,578 ("the '578 patent"). *Id.* at 1. In its motion, Samsung argued that the '578 patent recently issued and "is a continuation of two other patents (U.S. Patent Nos. 9,818,803 ('the '803 patent') and 10,854,683 ('the '683 patent')) asserted in this investigation." *Id.* at 2. Samsung further claimed that it worked "diligently to prepare the instant motion" and that respondents "will not be prejudiced as the investigation is 'in its early stages' and 'no new technologies or products will be

implicated by addition of the '578 Patent.'" *Id.* at 2.

On March 22, 2023, respondents Apt-Ability, Mobile Defenders, DFW Imports, Electronics Universe, eTech Parts Plus, Gadgetfix, Injured Gadgets, LCTech International, Parts4Cells, Phone LCD Parts LLC d/b/a Parts4LCD (together, "Phone LCD Parts"), and Wholesale Gadget Parts (collectively, the "Participating Respondents") filed a response opposing the motion. *Id.* at 1. They argued that "the '578 patent was allowed on December 23, 2022, almost three months ago, and before Samsung Display filed its complaint." *Id.* at 2. They also claimed that "'forcing [them] to defend against twenty-five additional claims would be burdensome and prejudicial.'" *Id.* at 3 (brackets in *ID*). They asked that if the motion is granted, the procedural schedule should be extended "to mitigate any prejudice." *Id.*

Also on March 22, 2023, Staff filed a response in support of Samsung Display's motion. *See id.* at 2–3. The Staff argued that adding the '578 patent is in the public interest "'because doing so would allow for the efficient adjudication of all three patents.'" However, the Staff requested that "the parties be permitted to submit a joint proposal regarding a revised procedural schedule" to avoid any prejudice to respondents. *See id.* at 3.

"Respondent [Mianyang BOE] filed a notice of joinder as to the Participating Respondents' opposition on March 23, 2023." *Id.* at 1–2.

On March 28, 2023, the ALJ issued the subject ID (Order No. 8), granting Samsung Display's motion. The ID finds that Samsung Display had established good cause for the proposed amendment pursuant to Commission Rule 210.14(b) (19 CFR 210.14(b)). As the ID explains, "[w]hile the '578 patent was allowed in December, it formally issued on February 28, 2023. . . . Samsung Display could therefore not have asserted the '578 patent at the time it filed its complaint or prior to institution of this investigation." *Id.* at 4. The ID also states that "the '578 patent is a continuation of the '683 patent, which itself is a continuation of the '803 patent." *Id.* The ID notes that all three patents are "'in the same family, name the same inventor, and share the same written description,'" and "[t]he products accused of infringing the '578 Patent are the same as those accused of infringing the '803 and '683 Patents.'" *Id.* (brackets in *ID*). However, the ID determines that "to avoid prejudicing the Participating Respondents (and Staff), an extension of the procedural schedule is warranted." *Id.* at 5.

No party filed a petition for review of the subject ID.

The Commission has determined not to review the subject ID. Pursuant to Commission Rule 210.14, the Notice of Investigation is amended to include claims 1–6, 10, 12, 17, 19, 21–23, 40–47, and 51–52 of the '578 patent.

The Commission vote for this determination took place on April 20, 2023.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: April 20, 2023.

Lisa Barton,

Secretary to the Commission.

SUPPLEMENTARY INFORMATION: The Quarterly Census of Employment and Wages Business Supplement (QBS) is a versatile collection instrument designed to capture information on the US economy quickly and efficiently using the BLS Annual Refiling Survey as the data collection platform. The QBS collection is designed to incorporate new questionnaires as the need arises to allow BLS to collect and publish information quickly so that stakeholders and data users can understand the impact of specific events on the US economy as they occur. The initial QBS survey, the 2021 Business Response Survey, collected information on how establishments were responding to the coronavirus pandemic and was followed by the 2022 Business Response Survey that captured information on telework, hiring, and vacancies at establishments as the economy began to emerge from the pandemic. This third QBS survey, the 2023 Business Response Survey, is being conducted on behalf of the Department of Labor's Employment and Training Administration (ETA). It will collect information on employer's experiences with layoffs since the start of the coronavirus pandemic and their familiarity with state workforce programs to better understand current labor market conditions at this stage of the coronavirus pandemic recovery and inform ETA of business' familiarity with the Short-Time Compensation (STC) program and other state workforce programs. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on February 3, 2021 (86 FRN 8037).
