Section 3506(c)(2)(A) of title 44 requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. Title: Lending Limits.

OMB Control No.: 1557-0221.

Affected Public: Businesses or other for-profit.

Type of Review: Extension of a currently approved collection.

Abstract: 12 CFR 32.7(a) provides that, in addition to the amount that a

national bank or savings association may lend to one borrower under 12 CFR 32.3, an eligible bank or savings association may make:

- Residential real estate loans or extensions of credit to one borrower in the lesser of the following two amounts: 10 percent of its capital and surplus; or the percent of its capital and surplus, in excess of 15 percent, that a State bank or savings association is permitted to lend under the State lending limit that is available for residential real estate loans or unsecured loans in the State where the main office of the national bank or savings association is located. Any such loan or extension of credit must be secured by a perfected first-lien security interest in 1-4 family real estate in an amount that does not exceed 80 percent of the appraised value of the collateral at the time the loan or extension of credit is made;

- Loans to small businesses to one borrower in the lesser of the following two amounts: 10 percent of its capital and surplus; or the percent of its capital and surplus, in excess of 15 percent, that a State bank is permitted to lend under the State lending limit that is available for loans to small businesses or unsecured loans in the State where the main office of the national bank or home office of the savings association is located; and

- Loans or extensions of credit to small farms to one borrower in the lesser of the following two amounts: 10 percent of its capital and surplus; or the percent of its capital and surplus, in excess of 15 percent, that a State bank or savings association is permitted to lend under the State lending limit that is available for loans or extensions of credit to small farms or unsecured loans in the State where the main office of the national bank or savings association is located.

An eligible national bank or savings association must submit an application to, and receive approval from, its supervisory office before using the supplemental lending limits in 12 CFR 32.7(a)(1)-(3). The supervisory office may approve a completed application if it finds that approval is consistent with safety and soundness. Section 32.7(b) provides that, in order for an application to be deemed complete, the application must include:

- Certification that the bank or savings association is an "eligible bank" or "eligible savings association;"

- Citations to relevant state laws or regulations;

- A copy of a written resolution by a majority of the bank's or savings association's board of directors approving the use of the limits in

§ 32.7(a) and confirming the terms and conditions for use of this lending authority; and

- A description of how the board will exercise its continuing responsibility to oversee the use of this lending authority.

12 CFR 32.9(b)(1) outlines three alternative methods (the Internal Model Method, the Conversion Factor Matrix Method, and the Current Exposure Method) for national banks and savings associations to use in calculating the credit exposure of non-credit derivative transactions. 12 CFR 32.9(c) outlines two alternative methods for national banks and savings associations to use in calculating credit exposure arising from their securities financing transactions.

Under 12 CFR 32.9(b)(1)(i)(C), the use of a model (other than the model approved for purposes of the Advanced Measurement Approach in the capital rules) must be approved in advance and in writing by the OCC specifically for part 32 purposes. If a national bank or savings association proposes to use an internal model that has been approved by the OCC for purposes of the Advanced Measurement Approach, the institution must provide prior written notification to the OCC prior to use of the model for lending limits purposes. OCC approval also is required for any substantive revisions to an approved model before that model is used for lending limit purposes.

Estimated Number of Respondents: 295.

Estimated Annual Burden: 1,958 hours.
