SUPPLEMENTARY INFORMATION:

Background

ONMS serves as the trustee for a network of underwater parks encompassing more than 620,000 square miles of marine and Great Lakes waters from Washington State to the Florida Keys, and from Lake Huron to American Samoa. The network includes a system of 14 national marine sanctuaries and Papahānaumokuākea and Rose Atoll marine national monuments. National marine sanctuaries protect our Nation's most vital coastal and marine natural and cultural resources, and through active research, management, and public engagement, sustain healthy environments that are the foundation for thriving communities and stable economies.

One of the many ways ONMS ensures public participation in the designation and management of national marine sanctuaries is through the formation of advisory councils. The Sanctuary System Business Advisory Council (council) has been formed to provide advice and recommendations to the Director regarding the relationship of ONMS with the business community. Additional information on the council can be found at <https://sanctuaries.noaa.gov/management/bac/>.

Matters to be discussed: The meeting will include updates from ONMS, a presentation from a sanctuary site, and updates from all working groups. For a complete agenda, including times and topics, please visit <http://sanctuaries.noaa.gov/management/bac/meetings.html>.
