BILLING CODE 3410-34-P

FARM CREDIT ADMINISTRATION

12 CFR Parts 652 and 655

RIN 3052-AC17

Federal Agricultural Mortgage Corporation Funding and Fiscal Affairs; Federal Agricultural Mortgage Corporation Disclosure and Reporting Requirements; Risk-Based Capital Requirements; Effective Date

AGENCY: Farm Credit Administration.

ACTION: Notice of effective date.

SUMMARY: The Farm Credit Administration (FCA) published a final rule under parts 652 and 655 on December 26, 2006 (71 FR 77247). This final rule is intended to more accurately reflect risk in the risk-based capital stress test (RBCST) in order to improve the RBCST's output—Federal Agricultural Mortgage Corporation's regulatory minimum risk-based capital level. In accordance with 12 U.S.C. 2252, the effective date of the final rule is 30 days from the date of publication in the **Federal Register** during which either or both Houses of Congress are in session. Based on the records of the sessions of Congress, the effective date of the regulations is March 31, 2007.

DATES: *Effective Date:* The regulation amending 12 CFR parts 652 and 655, published on December 26, 2006 (71 FR 77247) is effective March 31, 2007.

FOR FURTHER INFORMATION CONTACT: Joseph T. Connor, Associate Director for Policy and Analysis, Office of Secondary Market Oversight, Farm Credit Administration, McLean, VA 22102-5090, (703) 883-4280, TTY (703) 883-4434; or Rebecca S. Orlich, Senior Counsel, Office of General Counsel, Farm Credit Administration, McLean, VA 22102-5090, (703) 883-4020, TTY (703) 883-4020.

(12 U.S.C. 2252(a)(9) and (10))

Dated: March 28, 2007.

Roland E. Smith,

Secretary, Farm Credit Administration Board.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. FAA-2007-26812; Directorate Identifier 2006-NM-199-AD; Amendment 39-15006; AD 2007-07-09]

RIN 2120-AA64

Airworthiness Directives; Airbus Model A318, A319, A320, and A321 Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: The FAA is superseding an existing airworthiness directive (AD), which applies to certain Airbus Model A318-100, A319-100, A320-200, A321-100, and A321-200 series airplanes; and Model A320-111 airplanes. That AD currently requires modification of the electrical bonding of all structures and systems installed inside the center fuel tank. This new AD requires modification of additional bonding points inside the center fuel tank. This AD results from a report that additional bonding points need to be modified in order to prevent electrical arcing in the center fuel tank. We are issuing this AD to prevent electrical arcing in the center fuel tank due to inadequate bonding, which could result in an explosion of the center fuel tank and consequent loss of the airplane.

DATES: This AD becomes effective May 8, 2007.

The Director of the Federal Register approved the incorporation by reference of certain publications listed in the AD as of May 8, 2007.

On October 26, 2005 (70 FR 55228, September 21, 2005), the Director of the Federal Register approved the incorporation by reference of Airbus Service Bulletin A320-28-1104, Revision 01, dated December 8, 2004.

ADDRESSES: You may examine the AD docket on the Internet at <http://dms.dot.gov> or in person at the Docket Management Facility, U.S. Department of Transportation, 400 Seventh Street, SW., Nassif Building, Room PL-401, Washington, DC.

Contact Airbus, 1 Rond Point Maurice Bellonte, 31707 Blagnac Cedex, France,

for service information identified in this AD.

FOR FURTHER INFORMATION CONTACT: Tim Dulin, Aerospace Engineer, International Branch, ANM-116, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98057-3356; telephone (425) 227-2141; fax (425) 227-1149.

SUPPLEMENTARY INFORMATION:

Examining the Docket

You may examine the airworthiness directive (AD) docket on the Internet at <http://dms.dot.gov> or in person at the Docket Management Facility office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Management Facility office (telephone (800) 647-5227) is located on the plaza level of the Nassif Building at the street address stated in the **ADDRESSES** section.

Discussion

The FAA issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 to include an AD that supersedes AD 2005-19-14, amendment 39-14279 (70 FR 55228, September 21, 2005). The existing AD applies to certain Airbus Model A318-100, A319-100, A320-200, A321-100, and A321-200 series airplanes; and Model A320-111 airplanes. That NPRM was published in the **Federal Register** on January 12, 2007 (72 FR 1467). That NPRM proposed to continue to require modification of the electrical bonding of all structures and systems installed inside the center fuel tank. That NPRM also proposed to require modification of additional bonding points inside the center fuel tank.

Comments

We provided the public the opportunity to participate in the development of this AD. No comments have been received on the NPRM or on the determination of the cost to the public.

Conclusion

We have carefully reviewed the available data and determined that air safety and the public interest require adopting the AD as proposed.

Costs of Compliance

The following table provides the estimated costs for U.S. operators to comply with this AD. There are approximately 720 U.S.-registered airplanes. The average labor rate is \$80 per work hour.
