

In order to determine the FMV through appraisal, certain extraordinary assumptions and hypothetical conditions may have been made concerning the attributes and limitations of the land and potential effects of local regulations and policies on potential future land uses. Through publication of this notice, the BLM advises that these assumptions may not be endorsed or approved by units of local government. It is the buyer's responsibility to be aware of all applicable Federal, State and local government laws, regulation and policies. This guidance may affect the subject lands, including any required dedication of lands for public uses. It is the buyer's responsibility to be aware of existing or projected use of nearby properties. When conveyed out of Federal ownership, the lands will be subject to any applicable laws, regulations and policies of the applicable local government for proposed future uses. It will be the responsibility of the purchaser to be aware through due diligence of those laws, regulations and policies, and to seek any required approvals for future uses. Buyers should also make themselves aware of any Federal or State law or regulation that may affect the future use of the property. Any land lacking access from a public road or highway will be conveyed as such and future access acquisition will be the responsibility of the buyer.

Information concerning the sale, appraisals, reservations, sale procedures and conditions, Comprehensive Environmental Response, Compensation and Liability Act, maps and other environmental documents and mineral report is available for review at the Rock Springs Field Office.
