

e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB.

Abstract: Information collected under this rulemaking is necessary to implement the requirements of the Significant New Alternatives Policy (SNAP) program for evaluating and regulating substitutes for ozone-depleting substances (ODS) being phased out under the stratospheric ozone protection provisions of the Clean Air Act (CAA) and globally under the *Montreal Protocol on Substances that Deplete the Ozone Layer*. Under CAA Section 612, EPA is authorized to identify and restrict the use of substitutes for class I and class II ODS (listed in 40 CFR part 82, subpart A, appendices A and B) where EPA determines other alternatives are available or potentially available that reduce overall risk to human health and the environment. Any producer of a new substitute must submit a notice of intent to introduce a substitute into interstate commerce 90 days prior to such introduction. The producer must also provide EPA with information covering a wide range of health and environmental factors. The SNAP program, based on information collected from the manufacturers, formulators, and/or sellers of such substitutes, identifies acceptable substitutes. Responses to the collection of information are mandatory under Section 612 for anyone who sells or, in certain cases, uses substitutes for an ODS after April 18, 1994, the effective date of the final rule. Measures to protect confidentiality of information collected under the SNAP program are based on EPA's confidentiality regulations (40 CFR 2.201 *et seq.*, or Subpart B). Submitters may designate all or portions of their forms or petitions as confidential. EPA requires the submitters to substantiate their claim of confidentiality. Under CAA Section 114(c), emissions information may not be claimed as confidential.

To develop the lists of acceptable and unacceptable substitutes, the Agency must assess and compare "overall risks to human health and the environment" posed by use of substitutes in the context of particular applications. EPA requires submission of information covering a wide range of health and environmental factors. These include intrinsic properties such as physical and chemical information, atmospheric

effects including ozone depleting potential and global warming potential, toxicity, and flammability, and use-specific data such as substitute applications, process description, environmental release data, exposure data during use of a substitute, environmental fate and transport, and cost information of the substitute. Once a completed submission has been received, the SNAP program will commence its review. Any substitute which is a new chemical must also be submitted to the Agency under the Premanufacture Notice program under the Toxic Substances Control Act (TSCA). Alternatives that will be used as sterilants must be filed jointly with EPA's Office of Pesticide Programs and with SNAP.

Form Numbers: 1265–14.

Respondents/affected entities: Manufacturers, importers, formulators and processors of substitutes for ODS.

Respondent's obligation to respond: Mandatory (40 CFR 82.176).

Estimated number of respondents: 180 (per year).

Frequency of response: Annual.

Total estimated burden: 5,557 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$471,714, which includes \$22,938 annualized capital or O&M costs.

Changes in Estimates: There is a decrease of 814 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. The Agency anticipates the number of submissions to the SNAP program to remain the same as the previous ICR during the next 3 years. Many of the recent SNAP submissions, and those anticipated over the next three years, are for chemicals previously found acceptable for other SNAP applications or for blends of alternatives already found acceptable. For the expected submissions, the burden of developing supporting information for the majority of these submissions is expected to decrease because it is easier to find and review information for substitutes that have been reviewed previously. EPA estimates a reduction in the number of respondents responsible for recordkeeping for substitutes acceptable subject to use conditions and narrowed use limits. The increased availability of alternatives reduces the need for industry to use alternatives previously listed as acceptable subject to narrowed use limits.

Dated: September 13, 2019.

Cynthia A. Newberg,

Director, Stratospheric Protection Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OAR–2019–0027; FRL–9995–19–OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Information Collection Request for the Greenhouse Gas Reporting Program (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Greenhouse Gas Reporting Program (EPA ICR No. 2300.18, OMB Control No. 2060–0629) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through September 30, 2019. Public comments were previously requested via the **Federal Register** on February 26, 2019 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before October 25, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2019–0027, to (1) EPA online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential

Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Rachel Schmeltz, Climate Change Division, Office of Atmospheric Programs (MC-6207A), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 343-9124; fax number: (202) 343-2342; email address: GHGReporting@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: In response to the FY2008 Consolidated Appropriations Act (H.R. 2764; Pub. L. 110-161) and under authority of the Clean Air Act, the EPA finalized the Mandatory Reporting of Greenhouse Gases Rule (GHG Reporting Rule) (74 FR 56260; October 30, 2009). The GHG Reporting Rule, which became effective on December 29, 2009, establishes reporting requirements for certain large facilities and suppliers. It does not require control of greenhouse gases. Instead, it requires that sources emitting above certain threshold levels of carbon dioxide equivalent (CO₂e) monitor and report emissions.

Subsequent rules have promulgated requirements for additional facilities and suppliers; provided clarification and corrections to existing requirements; finalized confidentiality business information (CBI) determinations, amended recordkeeping requirements, and implemented an alternative verification approach. Collectively, the GHG Reporting Rule and its associated rulemakings are referred to as the Greenhouse Gas Reporting Program (GHGRP).

The purpose for this ICR is to renew and revise the GHG Reporting Rule ICR to update the burden and cost imposed by the current ICR under the GHGRP.

Form Numbers: None.

Respondents/affected entities: The respondents in this information collection include owners and operators of facilities that must report their GHG emissions and other data to EPA to comply with the rulemaking. To facilitate the analysis, EPA has divided respondents into groups that align with

the source categories identified in the rule.

Reporting facilities include, but are not limited to, those operating one or more units that exceed the CO₂e threshold for the industry sectors listed in Table A-4 of 40 CFR 98.2(a)(2) or those in the categories in which all must report, such as petroleum refining facilities and all other large emitters listed in Table A-3 of 40 CFR 98.2(a)(1). Additionally, the GHGRP requires reporting of GHGs from certain suppliers as listed in Table A-5 of 40 CFR 98.2(a)(4).

Respondent's obligation to respond: Mandatory (Section 114 of the Clean Air Act provides EPA authority to require the information mandated by the Greenhouse Gas Reporting Program because such data will inform and are relevant to future policy decisions).

Estimated number of respondents: 13,180 (total).

Frequency of response: Annual.

Total estimated burden: 740,012 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$87,945,711 (per year), includes \$29,526,397 annualized capital or operation & maintenance costs for respondents, labor cost of \$58,419,314 for respondents.

Changes in the Estimates: There is an increase of 825 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase reflects an adjustment in the number of respondents from the previous ICR, an adjustment of capital costs to reflect 2017 dollars and changes to the tax law, a new methodology to determine the numbers of responses and responses per respondent, and a complete and comprehensive re-evaluation of the activities and costs associated with all subparts of the GHGRP. Finally, there is a large decrease in annual cost burden (represented by combined Capital and O&M costs) as compared with the ICR currently approved by OMB due to a data entry error. The amount entered for the previous ICR should have been \$30,621,791 instead of \$58,815,798.

Courtney Kerwin,

Director, Regulatory Support Division.

BILLING CODE 6560-50-P

FEDERAL DEPOSIT INSURANCE CORPORATION

FDIC Advisory Committee on Community Banking; Notice of Meeting

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Notice of open meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, notice is hereby given of a meeting of the FDIC Advisory Committee on Community Banking, which will be held in Washington, DC. The Advisory Committee will provide advice and recommendations on a broad range of policy issues that have particular impact on small community banks throughout the United States and the local communities they serve, with a focus on rural areas.

DATES: Thursday, October 10, 2019, from 9:00 a.m. to 3:00 p.m.

ADDRESSES: The meeting will be held in the FDIC Board Room on the sixth floor of the FDIC Building located at 550 17th Street NW, Washington, DC.

FOR FURTHER INFORMATION CONTACT:

Requests for further information concerning the meeting may be directed to Mr. Robert E. Feldman, Committee Management Officer of the FDIC, at (202) 898-7043.

SUPPLEMENTARY INFORMATION:

Agenda: The agenda will include a discussion of current issues affecting community banking. The agenda is subject to change. Any changes to the agenda will be announced at the beginning of the meeting.

Type of Meeting: The meeting will be open to the public, limited only by the space available on a first-come, first-served basis. For security reasons, members of the public will be subject to security screening procedures and must present a valid photo identification to enter the building. The FDIC will provide attendees with auxiliary aids (e.g., sign language interpretation) required for this meeting. Those attendees needing such assistance should call (703) 562-6067 (Voice or TTY) at least two days before the meeting to make necessary arrangements. Written statements may be filed with the committee before or after the meeting. This meeting of the Advisory Committee on Community Banking will be Webcast live via the internet <http://fdic.windrosemedia.com>. Questions or troubleshooting help can be found at the same link. For optimal viewing, a high-speed internet connection is recommended. Further, a video of the meeting will be available on-demand approximately two weeks after the event.

Federal Deposit Insurance Corporation.
