NATIONAL SCIENCE FOUNDATION

Privacy Act of 1974; System of Records

AGENCY: National Science Foundation. **ACTION:** Notice of a new system of records.

SUMMARY: The National Science Foundation (NSF) is establishing a new system of records, "Student Loan Repayment Program Case Files, NSF-82," in connection with the recruitment of highly qualified job candidates and retention of highly qualified employees by paying off their Federally insured student loans. The agency will use this system to maintain and retrieve applications from individuals seeking such student loan repayment benefits, service agreements signed by individuals receiving such benefits, lender information, loan balances and repayment history, and other related program information and documentation for such individuals. Information in this system of records will be collected through various sources, including directly from the individual to whom the information applies, and from NSF officials, official NSF documents, student loan lenders or other agencies or third parties.

DATES: This system of records notice is effective as of January 24, 2024. The routine uses described in this notice will take effect on February 26, 2024, unless modified by a subsequent notice to incorporate comments received from the public. Submit comments on or before February 23, 2024.

ADDRESSES: You may submit comments, identified as "SORN NSF-82 (Student Loan Repayment Program)," by any of the following methods:

- Federal eRulemaking Portal: http:// www.regulations.gov. Follow the instructions for submitting comments.
- Email: Jennifer Carter, Human Resources Specialist, at jecarter@ nsf.gov. Include "SORN NSF-82

(Student Loan Repayment Program)" in the subject line of the message.

• Mail: Jennifer Carter, Human Resources Specialist, Division of Human Resource Management, National Science Foundation, 2415 Eisenhower Ave., Alexandria, VA 22314.

Instructions: NSF will post all comments on the NSF's website (https:// www.nsf.gov/). All comments submitted in response to this Notice will become a matter of public record. Therefore, you should submit only information that you wish to make publicly available.

FOR FURTHER INFORMATION CONTACT:

Jennifer Carter, Human Resources Specialist, jecarter@nsf.gov, 703-292-8060, or Sandra Evans, NSF FOIA/PA Officer, sevans@nsf.gov, 703-292-8060.

SUPPLEMENTARY INFORMATION: The Student Loan Repayment Program authority (5 U.S.C. 5379) is one of several hiring flexibilities made available to agencies to attract and retain highly qualified individuals for Federal service by allowing agencies to repay their Federally insured student loans. Individuals approved for this benefit must agree to complete a specified period of service with the agency, or to reimburse the agency if they fail to complete that term of service or violate certain other conditions of their service agreement. See 5 CFR part 537 (Office of Personnel Management (OPM) student loan repayment regulations). This NSF system of records will be used to document requests (applications) from such individuals for such repayment benefits, service agreements signed by individuals approved to receive such benefits, benefit amounts, lender and loan history, and other loan repayment or loan benefit reimbursement information (including any request to waive the reimbursement obligation) specific to each individual. Information maintained in this system will be used to administer, document, and track the repayment of these loans (or reimbursement of the loan repayment benefit, where applicable), to make individual case files available to, and prepare annual reports for, OPM on NSF's use of the student loan repayment program authority, and to seek and collect reimbursement from individuals who fail to fulfill their service obligation or violate other terms and conditions of their agreement.

SYSTEM NAME AND NUMBER:

Student Loan Repayment Program Case Files, NSF-82.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

National Science Foundation (NSF). 2415 Eisenhower Ave., Alexandria, VA 22314.

SYSTEM MANAGER(S):

Branch Chief, Division of Human Resource Management, NSF, 2415 Eisenhower Ave., Alexandria, VA 22314.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 5379; 5 CFR part 537.

PURPOSE(S) OF THE SYSTEM:

These records are maintained in order to process requests (applications) from or on behalf of highly qualified current or prospective NSF employees for student loan repayment benefits; to determine their eligibility for such benefits; to administer and document the agency's repayment of such loans, including service agreements that these individuals must sign in order to receive loan repayment benefits; and for debt collection purposes, in the case of individuals who fails to fulfill that agreement and must reimburse the agency, if the agency does not waive that obligation. In such cases, records may be incorporated, as relevant and necessary, into NSF's Privacy Act system of delinquent debtor files, and routinely used and disclosed as described in the system of records notice (SORN) for that system, SORN NSF-57. Furthermore, where the records indicate false statements, fraud, or other possible law violations, they may also be referred to law enforcement for investigation, prosecution, or other enforcement action. The records in this system are also used by NSF to prepare reports for OPM, and to make loan repayment case records available for OPM inspection upon request, as required by 5 CFR part 537.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Where an individual is or may be required to reimburse the agency for failure to complete the required period of service or to fulfill other conditions of their service agreement, system records may also notices, demand letters or other communications with the individual regarding that obligation, requests from or on behalf of such individuals for the agency to waive that obligation, and the agency's determination or disposition of such requests, including any referral for collection purposes, if the request is denied in whole or part.

- 10. Disclosure When Requesting Information. Information from a system may be disclosed to Federal, State, or local agencies which maintain civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary, to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit.

(Records may also be incorporated where relevant and necessary into NSF's system of delinquent debtor files, and routinely used and disclosed in accordance with the system of records (SORN) notice for that system. See SORN NSF-57, or any successor SORN.)
- 14. Disclosure to other Federal agencies. NSF may disclose records in this system to its payroll processing provider in order to calculate tax withholdings and disburse payments of student loan repayment benefits to loan holders on behalf of employees approved to receive this benefit.
- 15. Disclosure to Student Lending Institutions or Loan Holders. NSF may disclose to student lending institutions or loan holders records from this system as a routine use disclosure in order to obtain information (such as the borrower's account number, original and current loan balance, repayment schedule, repayment history, and current repayment status) to allow NSF to determine an individual's initial and continuing eligibility for this program, to facilitate accurate payments to student loan holders on behalf of eligible individuals, and to ensure NSF discontinues making student loan repayments to individuals who do not remain eligible for them during the period of the service agreement. For the same reason, and to ensure that loan payments made by the agency do not exempt an employee from his or her responsibility and/or liability for any loan(s) the individual has taken out, NSF also may disclose to loan holders records from this system of records as a routine use disclosure in the event it becomes known to NSF during the course of its program eligibility determinations that an individual is past due, delinquent, or in default of a federally insured student loan.

II. Discussion

By letter dated November 7, 2023 (ADAMS Accession No. ML23311A154), PG&E submitted to the NRC an application to renew the operating licenses for DCPP for an additional 20 years of operation. This submission initiated the NRC's proposed action of determining whether to grant the license renewal application. DCPP consists of two pressurized-water reactors designed by Westinghouse and is located in Avila Beach, California. The operating licenses for DCPP expire as follows: Unit 1 on November 2, 2024, and Unit 2 on August 26, 2025. The license renewal application was submitted pursuant to part 54, "Requirements for Renewal of Operating Licenses for Nuclear Power Plants," of title 10 of the Code of Federal Regulations (10 CFR)
