POLICY JUSTIFICATION

Japan—Standard Missile (SM)-3 Block IIA

The Government of Japan has requested to buy up to seventy-three (73) Standard Missile-3 (SM-3) Block IIA missiles. Also included are MK 29 Canisters with packing, handling, storage, and transportation (PHS&T) kits; up to ten (10) Special Assignment Airlift Mission (SAAM) flights; U.S. Government and contractor representatives' technical assistance, engineering and logistical support services, and other related elements of logistics and program support. The estimated cost is \$3.295 billion.

This proposed sale will support the foreign policy and national security of the United States by improving the security of a major ally that is a force for political stability and economic progress in the Asia-Pacific region. It is vital to U.S. national interests to assist Japan in developing and maintaining a strong and effective self-defense capability.

The proposed sale will provide Japan with increased ballistic missile defense capability to assist in defending the Japanese homeland and U.S. personnel

stationed there. Japan will have no difficulty absorbing these additional missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor for the SM-3 Block IIA All Up Rounds will be Raytheon Missile Systems, Tucson, Arizona. The prime contractor for the MK 29 Canisters and PHS&T kits will be BAE Systems, Minneapolis, Minnesota. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require annual trips to Japan involving U.S. Government and contractor representatives for technical reviews, support, and oversight for approximately five years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 19-41

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The proposed sale will involve the release of sensitive technology to the Government of Japan related to the Standard Missile-3 (SM-3):

The ship- or ground-launched SM-3 Block IIA is the most recent iteration in the SM-3 family. It has two distinct new features: larger rocket motors that will allow it to defend broader areas from ballistic missile threats; and a larger kinetic warhead. The kinetic warhead has been enhanced, improving the search, discrimination, acquisition and tracking functions, to address emerging threats. Once enclosed in the canister, the SM-3 Block IIA missile is classified CONFIDENTIAL. The optics hardware and signal processor are classified SECRET.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. The sensitive technology being released under this notification is subject to special security measures.

This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal are authorized for release and export to the Government of Japan.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: State Education Agency, Local Educational Agency, and School Data Collection and Reporting under ESEA, Title I, Part A.

OMB Control Number: 1810–0581.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 17,022.

Total Estimated Number of Annual Burden Hours: 293,152.

Abstract: Title I, Part A (Title I) of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the

Every Student Succeeds Act of 2015 (ESSA), contains several provisions that require State education agencies (SEAs), local educational agencies (LEAs), and schools to collect and disseminate information. The Paperwork Reduction Act (PRA) covers these activities. The previous authorization of the ESEA contained information collection requirements which are currently approved by OMB under control number 1810–0581.

Congress approved a joint resolution on March 9, 2017 disapproving the U.S. Department of Education's (Department's) regulations related to State plans, statewide accountability systems, and data reporting. The burden changes reflected in this revision renewal data collection are a result of this joint resolution and reflect only the requirements of the statute. The requirement to produce a State and LEA report card remains unchanged under this revision renewal and most of the work to produce the report cards is the same. There are some requirements that were in the regulations that are not required due to the joint resolution. As a result, the burden estimate is slightly lower under this revision renewal.

SEAs, LEAs, and schools collect and disseminate the information to carry out the reporting requirements of Title I of the ESEA. The information is used to facilitate compliance with statutory requirements and to provide information to school communities (including parents), LEAs, SEAs and the Department regarding activities required under Title I of the ESEA.

Dated: December 17, 2019.

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer.
