Extension of Time Limits Regulation

Parties may request an extension of time limits before a time limit established under Part 351 expires, or as otherwise specified by the Secretary. See 19 CFR 351.302. In general, an extension request will be considered untimely if it is filed after the time limit established under Part 351 expires. For submissions which are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. on the due date. Examples include, but are not limited to: (1) Case and rebuttal briefs, filed pursuant to 19 CFR 351.309; (2) factual information to value factors under 19 CFR 351.408(c), or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2), filed pursuant to 19 CFR 351.301(c)(3) and rebuttal, clarification and correction filed pursuant to 19 CFR 351.301(c)(3)(iv); (3) comments concerning the selection of a surrogate country and surrogate values and rebuttal; (4) comments concerning CBP data; and (5) Q&V questionnaires. Under certain circumstances, Commerce may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, Commerce will inform parties in the letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. This modification also requires that an extension request must be made in a separate, stand-alone submission, and clarifies the circumstances under which Commerce will grant untimely-filed requests for the extension of time limits. These modifications are effective for all segments initiated on or after October 21, 2013. Please review the final rule, available at <http://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>, prior to submitting factual information in these segments.

These initiations and this notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.221(c)(1)(i).

Dated: June 7, 2019.

James Maeder,

Associate Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

SUPPLEMENTARY INFORMATION:

July 2 (webinar)—The purpose of the webinar is to update all Workgroup members on relevant proceedings from the June 2019 Pacific Council meeting, and continue discussions on the data needs and progress in developing a draft risk analysis. The Workgroup may also discuss their work plan and progress made on assigned tasks related to the Workgroup's prime objective of reassessing the effects of Pacific Council-area ocean salmon fisheries on the Chinook salmon prey base of SRKW. This is a public meeting and not a public hearing. Public comments will be taken at the discretion of the Workgroup co-chairs as time allows.

July 23-24 (in-person)—The purpose of the meeting is to continue work on the draft risk analysis, and provide any updates or additional status information that may address data gaps and questions identified at the May 23-24, and the July 2, 2019 meetings. The Workgroup may also discuss their work plan and progress made on assigned tasks related to the Workgroup's prime objective of reassessing the effects of Pacific Council-area ocean salmon fisheries on the Chinook salmon prey base of SRKW. Additional topics of discussion may include, but are not limited to, the criteria and methodology developed to evaluate risk, and scoping of management/conservation tools may be included in the discussion if warranted. This is a public meeting and not a public hearing. Public comments will be taken at the discretion of the Workgroup co-chairs as time allows.

Background

At the March 2019 Pacific Council meeting, the National Marine Fisheries Service (NMFS) announced plans to reinstate Endangered Species Act (ESA) consultation on the effect of Pacific Council-area ocean salmon fisheries on SRKW. NMFS and the Pacific Council agreed on a collaborative approach and began establishing work plans and a tentative schedule. At the April 2019 meeting, the Pacific Council formed the

Workgroup to reassess the effects of Pacific Council-area ocean salmon fisheries on the Chinook salmon prey base of SRKW. A draft Terms of Reference was reviewed by the Pacific Council which describes the purpose of the Workgroup, a proposed timeline to accomplish this task, and a list of participants. Supporting documents can be found on the Pacific Council's website under the April 2019 Briefing Book (<https://www.pcouncil.org/resources/archives/briefing-books/april-2019-briefing-book>, Agenda Item F.3.a, Supplemental NMFS Report 1, April 2019 and Agenda Item D.6.a, Supplemental NMFS Report 1, April 2019). Materials presented during past Workgroup meetings may be found on the NMFS West Coast Regional website (<https://www.fisheries.noaa.gov/west-coast/southern-resident-killer-whales-and-fisheries-interaction-workgroup>).

Although non-emergency issues not contained in the meeting agendas may be discussed, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that

require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Sandra Krause, (503) 820-2419, at least 10 business days prior to the meeting date.

Dated: June 10, 2019.
