POLICY JUSTIFICATION

Morocco—M88A2 Heavy Equipment Recovery Combat Utility Lift and Evacuation System (HERCULES), Support, and Equipment

The Government of Morocco has requested to buy twenty five (25) M88A2 Heavy Equipment Recovery Combat Utility Lift and Evacuation System (HERCULES) vehicles and/or M88A1 long supply HERCULES refurbished vehicles; and twenty-five (25) M2 .50 caliber machine guns. Also included are twenty five (25) export Single Channel Ground and Airborne Radio System (SINCGARS); twenty five (25) AN/PSN-13A Defense Advanced Global Positioning System (GPS) Receiver (DAGR) with Selective-Availability/Anti-Spoofing Module (SAASM); thirty (30) AN/VAS-5B Driver Vision Enhancer (DVE) kits; twenty five (25) M239 or M250 smoke grenade launchers; one thousand eight hundred

(1,800) M76 (G826) or L8A1/L8A3 (G815) smoke grenade rounds; spare parts; support equipment; depot level support; Government-Furnished Equipment (GFE); repair parts; communication support equipment; communication equipment integration; tools and test equipment; training; training simulators; repair and return program; U.S. Government and contractor engineering, technical, and logistics support services; Technical Assistance Field Team (TAFT); and other related elements of logistics and program support. Additionally, the following recommended basic load ammunition may be included upon request from customer: twenty five thousand (25,000) A576 cartridges, .50 caliber linked 4 API/API-T F/M2; three hundred (300) G815 - grenade, smoke screening L8A1/A3; two thousand five hundred (2,500) A541 - 50 armor piercing incendiary, tracer M20 F/M2; ninety-one thousand eight hundred (91,800) A557 - cartridge, .50 caliber 4 ball/1 tracer linked M33 F/M2; fifty four thousand (54,000) A598 - cartridge, .50 caliber blank F/M2; other technical assistance and support equipment; and other related elements of logistics and program support. The total estimated cost is \$239.35 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a major non-NATO ally that continues to be an important force for political stability and economic progress in North Africa.

The proposed sale will improve Morocco's capability to meet current and future combat vehicle recovery requirements. Morocco will use the enhanced capability to enable armored forces training to strengthen its homeland defense and deter regional threats. Morocco intends to use these defense articles and services to modernize its armed forces by updating their combat vehicle recovery capability in pace with their armored unit upgrades. Morocco will have no difficulty absorbing these vehicles into its armed forces.

The proposed sale of this equipment and services will not alter the basic military balance in the region.

The principal contractor will be BAE, York, Pennsylvania. The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor(s).

Implementation of this sale will require the assignment of approximately 30 U.S. Government or contractor representatives to travel to Morocco for equipment deprocessing/fielding,

system checkout and new equipment training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20-03

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The M88A2 Improved Recovery Vehicle HERCULES (Heavy Equipment Recovery Combat Utility Lift and Evacuation System) recovers tanks mired to different depths, removes and replaces tank turrets and power packs, and uprights overturned heavy combat vehicles. The main winch on the M88A2 is capable of a 70-ton, single-line recovery, allowing the HERCULES to provide recovery of the 70-ton M1A2 Abrams tanks. The highest level of information that could be transferred with the sale of HERCULES is UNCLASSIFIED.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that Morocco can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal are authorized for release and export to the Government of Morocco.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Study of District and School Uses of Federal Education Funds.

OMB Control Number: 1850–NEW.

Type of Review: A new information collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 306.

Total Estimated Number of Annual Burden Hours: 306.

Abstract: The Study of District and School Uses of Federal Education Funds will examine targeting and resource allocation for five major federal education programs: Part A of Titles I, II, III, and IV of the Elementary and Secondary Education Act (ESEA)—including school improvement grants

provided under Section 1003 of Title I, Part A—as well as Title I, Part B of the Individuals with Disabilities Education Act (IDEA). The study will collect detailed fiscal data from a nationally representative sample of 400 school districts, including budgets, plans, expenditure data, and personnel and payroll data. In addition, the study will collect data on allocations to districts and schools to examine how the distribution of funds varies in relation to program goals and student needs; survey district and school officials to explore such issues as the types of services and resources that are provided through the federal funds, coordination across programs, and use of flexibility; conduct interviews in nine site visits to districts to obtain more in-depth data; and analyze fiscal data.

Dated: March 12, 2020.

Green Lake Water Power Company; Green Lake Hydroelectric Project; Notice of Dispute Resolution Panel Meeting and Technical Conference

On March 9, 2020, Commission staff, in response to the filing of a notice of study dispute by the U.S. National Marine Fisheries Service (NMFS) on February 25, 2020, convened a single three-person Dispute Resolution Panel (Panel) pursuant to 18 CFR 5.14(d).

The Panel will hold a technical conference, via conference call, at the time identified below. The technical conference will address the study dispute regarding an assessment of the feasibility of various fish passage options for Atlantic salmon and alewife at the Green Lake Project, as requested by NMFS in its study request filed on July 26, 2019.

The purpose of the technical session is for the disputing agency, applicant, and Commission to provide the Panel with additional information necessary to evaluate the disputed study. All local, state, and federal agencies, Indian tribes, and other interested parties are invited to participate in the conference call as observers. The Panel may also request information or clarification on written
